

Neology Launches neoFleet™, a Next-Generation Toll and Violation Management Platform for Commercial Fleets

Industry veteran Jon Routledge appointed to lead neoFleet business, brings innovative toll management solutions to fleet operators across the USA and Canada

CARLSBAD, CA, UNITED STATES, September 1, 2026 /EINPresswire.com/ -- [Neology](#), a global transportation technology company that is partnering with customers to [re]imagine tolling, transportation, and mobility technology solutions, today announced the launch of [neoFleet™](#), a next-generation toll and violation management platform designed to help commercial fleet owners and operators simplify toll administration, reduce costs, and gain greater visibility into their operations across the United States and Canada.

Neology also announced that transportation industry veteran Jon Routledge has been appointed as Senior Vice President and General Manager of Neology's new neoFleet division, where he will lead the growth and expansion of the new toll management services and mobility payments business.

For more than 30 years, Neology has helped toll agencies solve complex tolling challenges across North America. Today, fleet operators face many of those same challenges as toll networks expand and payment and enforcement programs become more complex. Built using Neology's proven expertise, neoFleet gives fleet operators a centralized, nationwide solution for managing toll transactions, violations, billing, reconciliation, and reporting, helping them reduce administrative burden and control costs.

Routledge brings decades of experience in transportation, mobility payments, fleet services, and tolling. Throughout his career, he has worked closely with fleet operators, transportation organizations, and the tolling industry to develop solutions that put the customer first, improve efficiency, reduce administrative burdens, and deliver better business outcomes.

"Toll management is an ever changing and complex business for many fleets," said Jon Routledge, SVP & General Manager of Neology's neoFleet division. "Neology's neoFleet solution removes the headaches, providing payment aggregation, and data management solutions that help operators better manage their fleets, saving time and money so that they can focus on their core business."

Jon's experience and deep understanding of commercial and rental fleet markets make him the ideal leader for neoFleet," said Bradley H. Feldmann, Chairman and Chief Executive Officer of Neology. "He shares our commitment to innovation and customer success, and together we're bringing decades of proven tolling expertise to fleet operators through a smarter, more efficient solution designed specifically for their needs."

The launch of the neoFleet platform marks an important milestone in Neology's continued expansion of transportation technology, software, and managed services. By combining industry-leading tolling expertise, advanced transponder plus RFID reader technology, and powerful back-office solutions, neoFleet delivers a smarter approach to fleet toll and violation management.

For fleet operators looking to better manage the complexity and cost of tolling, neoFleet provides nationwide coverage, flexible data management solutions, and trusted expertise from one of the transportation industry's most experienced technology providers.

About Neology: Neology, Inc. is a global technology company headquartered in Carlsbad, California, with manufacturing and operations facilities in North America, Latin America, Europe, and Asia Pacific.
