

# Hypertherm and Partners Showcase Next-Generation Automation and Plasma Cutting Solutions at JIWS 2026

OSAKA, OSAKA, JAPAN, September 2, 2026 /EINPresswire.com/ -- [Hypertherm Associates](https://www.hypertherm.com), a U.S.-based leading manufacturer of industrial cutting systems and software, will support its valued channel partners at the Japan International Welding Show (JIWS) 2026, taking place September 16-19, 2026, at INTEX Osaka in Osaka, Japan. Through partner exhibits across the show floor, visitors will have the opportunity to explore the latest advancements in plasma cutting, robotic automation, and fabrication technologies, while connecting with the Hypertherm team and industry experts.

As Japanese manufacturers increasingly invest in automation to address labor shortages, improve productivity, and maintain global competitiveness, Hypertherm continues to support fabricators with solutions that combine precision cutting, software intelligence, and automation. Industries including shipbuilding, structural steel, heavy equipment, and industrial fabrication are accelerating the adoption of advanced cutting technologies as they modernize production operations.

Robotmaster® Plasma Module Debuts at JIWS 2026

Powermax33 XP®

## [Robotmaster®](https://www.hypertherm.com) Plasma Module Debuts at JIWS 2026

One of the key highlights at JIWS 2026 will be the exhibition debut of the Robotmaster® Plasma Module at IS-Tail Co., Ltd. [Booth 1-47]. The latest enhancement to the Robotmaster software platform simplifies offline programming for robotic plasma cutting applications, helping

manufacturers reduce programming complexity and accelerate deployment of automated cutting systems. Visitors can also learn how Hypertherm's plasma technologies, including XPR®, MAXPRO200®, and Powermax®, support applications ranging from precision fabrication and robotic cutting to heavy industrial processing.

At Aichi Sangyo Co., Ltd. [Booth 1-09], visitors will see the [Powermax33 XP®](#) for the first time at a trade show in

Japan. Combining professional-grade cutting performance, portability, and ease of use, the system is designed for fabrication, maintenance, and repair applications where flexibility and productivity are critical. The recently introduced Powermax33 XP® expands Hypertherm's portable plasma cutting portfolio with an attractive solution for customers working with thinner materials.

“Japan's manufacturing sector is entering a new phase where automation is becoming increasingly important to maintaining productivity, competitiveness, and craftsmanship,” said Wagner Turri, Sales Director for Japan, Hypertherm Associates. “At the same time, customers continue to expect exceptional cut quality and reliability. We are seeing growing interest in solutions that combine advanced plasma cutting, software, and automation to help fabricators work more efficiently while meeting these expectations. JIWS provides a valuable opportunity for us to engage directly with customers, better understand their evolving needs, and work alongside our partners to support their future growth.”

Hypertherm representatives will be onsite throughout JIWS 2026 and welcome the opportunity to connect with fabricators, manufacturers, OEMs, and industry partners to discuss cutting applications, automation strategies, and production challenges.

To learn more about Hypertherm cutting and automation solutions, visit Hypertherm Associates or connect with the Hypertherm team at any of the partner booths throughout JIWS 2026.

#### About Hypertherm Associates:

Hypertherm Associates is a U.S. based manufacturer of industrial cutting products and software. Its products, including Hypertherm plasma and OMAX waterjet systems, are used by companies around the world to build ships, airplanes, and railcars; construct steel buildings, fabricate heavy equipment, erect wind turbines, and more. In addition to cutting systems, the company creates

CNCs, and software trusted for performance and reliability that results in increased productivity and profitability for hundreds of thousands of businesses. Founded in 1968, Hypertherm Associates is a 100 percent Associate-owned company, employing approximately 2,000 Associates, with operations and partner representation worldwide.
