

Kuvings Showcases the Future of Convenient Juicing at IFA 2026

At IFA 2026, Kuvings will showcase its innovative cold-press juicing and blending solutions designed to support healthier lifestyles.

FRANKFURT, GERMANY, September 1, 2026 /EINPresswire.com/ -- Premium kitchen appliance brand Kuvings will participate in IFA 2026, one of the world's leading trade fairs for consumer electronics and home appliances, taking place from September 4–8 at Messe Berlin, Germany. Visitors can meet Kuvings at H6.1 - 111, where the company will showcase its latest juicing and blending innovations designed for both home and professional use.

Founded in 1924, IFA (Internationale Funkausstellung) brings together global brands, buyers, retailers, and industry professionals from around the world, serving as a key platform for showcasing new technologies and industry trends.

At this year's exhibition, Kuvings will showcase its AUTO Series hands-free slow juicers, designed to simplify the juicing process through enhanced convenience and efficiency. Among the featured products, the [AUTO10S](#) Hands-Free Slow Juicer combines a 3L hopper with an automatic cutting mechanism to reduce preparation time and minimize hands-on work. Powered by Kuvings' proprietary cold-press technology, it helps preserve the natural flavor and nutritional value of fruits and vegetables while supporting the preparation of juices, sorbets, and plant-based beverages.

Kuvings will also present the [CB1000](#) Commercial Vacuum Blender, a professional blending

The graphic features two Kuvings appliances: a large black cold-press juicer on the left with a green juice being poured into a glass, and a silver commercial vacuum blender on the right. The background is a light blue gradient. In the top right corner is the Kuvings logo. Large, bold text reads 'IFA 2026' and '4-8 SEPTEMBER | MESSE BERLIN'. Below this, a blue box contains the text 'Hall No. H6.1' and 'Stand No. 111'.

Kuvings will join IFA 2026, Europe's largest home appliances trade show.

solution developed for cafés, juice bars, restaurants, hotels, and other foodservice environments. Featuring vacuum blending technology, the CB1000 helps reduce oxidation and foam generation while maintaining beverage quality and consistency. The blender is equipped with a sound enclosure that automatically opens and closes during operation, enhancing convenience in busy commercial environments.

Kuvings continues to expand its global presence through innovative juicing and blending technologies trusted by consumers and foodservice professionals in more than 90 countries. Through IFA 2026, Kuvings aims to connect with distributors, retailers, and industry professionals from around the world while highlighting its latest innovations in juicing and blending technology.

A Kuvings representative said, "IFA provides an excellent opportunity to connect with consumers, buyers, and industry professionals from around the world. Through this exhibition, we aim to showcase our latest innovations, strengthen relationships with global partners, and expand our presence across key international markets."
