INVISI-Ball Expands Product Line with New Soccer and Volleyball Mounts for 2026

Patented Floating Display System Now Available for Volleyballs and Soccer Balls in Sizes 3, 4, and 5

Invisi-Ball Logo

NEW HILL, NC, UNITED STATES, September 3, 2026 /EINPresswire.com/ -- INVISI-Ball®, the patented sports display system known for creating the illusion that sports balls are floating on the wall, is proud to announce the launch of its newest products: Soccer Ball Mounts designed for Sizes 3, 4, and 5 soccer balls and a new Volleyball Mount.

> With soccer taking center stage in 2026 and volleyball continuing to see tremendous growth at every level, this is the perfect time to expand the INVISI-Ball lineup."
>
> *Tommy DeLoach, Inventor of INVISI-Ball®*

The expansion comes in response to years of customer requests to broaden the INVISI-Ball product line beyond football, basketball and helmet mounts. As soccer participation continues to surge across the United States and volleyball remains one of the nation's fastest-growing sports, INVISI-Ball is bringing its signature display technology to even more athletes, families, collectors, and fans.

Every ball tells a story.

For some, it's a game-winning goal scored in a championship match. For others, it's the volleyball from a memorable tournament run, a signed keepsake from a favorite athlete, or the ball that represents a season of hard work and dedication. These moments deserve more than a shelf, a storage bin, or a dusty corner of a room.

The new soccer and volleyball mounts allow athletes and families to showcase those special memories with the same clean, modern presentation that has made INVISI-Ball a favorite among sports enthusiasts nationwide.

Since its inception, INVISI-Ball has focused on one simple concept: make the ball the focal point, not the display hardware. The patented mounting system creates a floating effect that eliminates bulky brackets and distracting supports, allowing the achievement itself to take center stage.

The new product lineup includes:

Soccer Ball Mounts
- Designed to accommodate Size 3, Size 4, and Size 5 soccer balls
- Perfect for youth, club, high school, collegiate, and professional soccer memorabilia
- Creates INVISI-Ball's signature floating display appearance
- Ideal for game balls, signed memorabilia, and championship keepsakes

Volleyball Mount
- Designed to securely display regulation volleyballs
- Perfect for tournament balls, team-signed volleyballs, and personal achievements
- Preserves the clean, minimalist aesthetic that defines the INVISI-Ball brand

"With soccer taking center stage in 2026 and volleyball continuing to see tremendous growth at every level, this is the perfect time to expand the INVISI-Ball lineup," said Tommy DeLoach, Inventor of INVISI-Ball®. "We're excited to give more athletes and fans the opportunity to display the equipment that represents their passion for the game."

Like all INVISI-Ball products, the new mounts are designed to install quickly and securely without damaging or altering the condition of the ball being displayed. The patented line-of-sight mounting system keeps the focus on the ball itself, creating a professional

display suitable for homes, offices, sports facilities, locker rooms, and memorabilia collections.

Manufactured, assembled, and distributed in the United States, INVISI-Ball continues its commitment to providing premium-quality display solutions for sports enthusiasts nationwide.

The new Soccer Ball and Volleyball Mounts are available now through the INVISI-Ball website at www.invisi-ball.com.

About INVISI-Ball
INVISI-Ball® is a patented sports display system designed to create the illusion that sports balls and helmets are floating on the wall. The innovative mounting solution eliminates bulky hardware and visual distractions, allowing athletes, collectors, and fans to showcase their most treasured sports memorabilia with a clean, modern appearance. INVISI-Ball products are proudly manufactured, assembled, and distributed in the USA.
