

Epoxy Floors NJ Expands Commercial Kitchen Flooring Solutions Across New Jersey

Epoxy Floors NJ Expands Commercial Kitchen Flooring Solutions Across New Jersey

STIRLING, NJ, UNITED STATES, September 1, 2026 /EINPresswire.com/ -- Epoxy Floors NJ, a certified commercial resinous flooring contractor serving New Jersey since 1988, has updated its specialized line of seamless [commercial kitchen flooring solutions](#) engineered to address high failure rates in traditional food service flooring. Commercial kitchen environments face constant operational stress from thermal shock, aggressive chemical washdowns, and heavy equipment impact. Traditional tile grout and untreated concrete absorb moisture, grease, and bacteria, leading to premature floor failure and health code compliance issues.

Best Epoxy Restaurant Flooring

Epoxy Floors NJ provides [seamless epoxy and urethane cement flooring systems](#) designed specifically to withstand temperature swings—from walk-in freezers to line ovens—while meeting strict USDA, FDA, and ADA standards.

Key features of the [commercial kitchen flooring systems](#) include:

Hygienic, Non-Porous Surface: A completely seamless finish that eliminates grout lines, preventing mold, mildew, and harboring bacteria.

Customized Slip Resistance: Multi-grade quartz and aggregate broadcasts that reduce slip-and-fall hazards in high-moisture prep zones.

Thermal Shock Resistance: Engineered urethane cement systems capable of expanding and

contracting with the underlying concrete slab during extreme temperature swings.

Fast-Cure Options: Rapid turnaround installations scheduled during off-hours to minimize downtime for active food processing facilities and restaurants.

"Commercial kitchen floors take a beating every day from hot water, grease, and heavy foot traffic," said Stephen Smedley of Epoxy Floors NJ. "Our team focuses strictly on commercial and industrial applications to deliver seamless, durable floors that keep facilities fully compliant, safe, and operational for the long term."

Epoxy Floors NJ offers free site inspections and consultations for food service facilities across New Jersey. To learn more about seamless commercial kitchen flooring or request an estimate, visit Epoxy Floors NJ or call 732-384-5577.
