

ME Elecmetal Invites Community to 2026 Manufacturing Day Open House in Duluth, MN

Foundry tours, live casting demonstrations and hands-on learning celebrate modern manufacturing careers and community impact.

DULUTH, MN, UNITED STATES, September 1, 2026 /EINPresswire.com/ -- [ME Elecmetal](#) is pleased

“

It is a chance to celebrate our employees, connect with the community and inspire students and families to see manufacturing as a dynamic and rewarding career path.”

Scott Schudalla, Vice President of Manufacturing

to announce its participation in the 2026 Manufacturing Day initiative with a community open house at its U.S. foundry in Duluth, Minnesota. The event will take place on Saturday, October 3, 2026, from 10:00 AM to 2:00 PM, giving employees, customers, students, educators, families, and community members the opportunity to experience firsthand the innovation, craftsmanship, and career potential that define modern metal casting.

Open-House Schedule:

Duluth, Minnesota – Saturday, October 3, 2026 | 10:00 AM – 2:00 PM

ME Elecmetal Duluth Foundry
200 East Carterett Street, Duluth, MN 55808

In alignment with the goals of Manufacturing Day, a nationwide initiative dedicated to inspiring the next generation of manufacturing professionals, ME Elecmetal will offer facility tours, live metal casting demonstrations, and educational programming designed to highlight the critical role of manufacturing in the U.S. economy.

The event will also provide an opportunity to honor and recognize ME Elecmetal employees by giving them a platform to share their workplace, expertise, and contributions with family, friends, and the broader Duluth community.

“At ME Elecmetal, Manufacturing Day gives us the opportunity to open our doors and share the pride, skill and innovation behind the work our teams do every day,” said Scott Schudalla, Vice President of Manufacturing at ME Elecmetal. “It is a chance to celebrate our employees, connect

with the community and inspire students and families to see manufacturing as a dynamic and rewarding career path. The products we manufacture support critical infrastructure and essential industries across our great state of Minnesota and beyond, and we are proud to showcase the people and processes behind that impact.”

As a cornerstone of the U.S. manufacturing sector, the metal casting industry supports vital supply chains across aerospace, automotive, agriculture, construction, mining, energy, infrastructure, and more. Events like Manufacturing Day play an important role in building awareness of modern manufacturing careers, addressing workforce needs, and helping students and families better understand the opportunities available in skilled trades, engineering, technology, operations, and related fields.

The poster is for ME Elecmetal's Manufacturing Day Open House. It features a blue background with a large circular logo in the center that says "MFG DAY" and "ME elecmetal". To the right of the logo, it says "3 OCT SATURDAY" and "10 AM - 2 PM". Below the logo, there are three small images: a group of people, a child working on a project, and a man holding a small object. To the left of these images, it says "You're Invited!" and "Join ME Elecmetal for a free, family-friendly Manufacturing Day Open House and get an inside look at the world of metal casting, innovation, and manufacturing careers." To the right, there is a list of activities: "Take a tour of our foundry", "Make your own casting during our 'Foundry-in-a Box' activity", "Learn about the importance of the metal casting industry to our communities and the U.S. economy", and "Gain insight on the amazing careers in metal casting". At the bottom left, it says "JOIN US! Scan to register" with a QR code. At the bottom right, it says "Manufacturing Day Open House" and "200 East Carterett Street, Duluth, MN 55808 | RSVP 218-626-2761".

ME Elecmetal's MFG Day Open House

This event also reflects ME Elecmetal's broader commitment to community engagement and outreach. The company actively partners with local schools, vocational programs, and industry associations to support STEM education, workforce development, and sustainability awareness. Through employee volunteer initiatives, charitable contributions, educational partnerships, and hands-on learning experiences, ME Elecmetal works to build lasting relationships with the communities where it operates—helping shape the future of mining and manufacturing by investing in the people who power it.
