

HelloRoam Surpasses 35,000 Downloads as Demand for Travel eSIMs Grows Worldwide

The travel eSIM provider has now been downloaded more than 35,000 times combined on iOS and Android as global demand for affordable connectivity grows.

LONDON, ENGLAND, UNITED KINGDOM, September 2, 2026 /EINPresswire.com/ -- HelloRoam, a provider of prepaid eSIM data plans for international travelers, has surpassed 35,000 downloads across the [Apple App Store](#) and [Google Play](#), the company announced today. The milestone reflects rising demand among travelers for contract-free, affordable alternatives to traditional roaming.

“

Our focus has been on making activation instant and reliable across as many carrier networks as possible, and this growth tells us that approach is resonating with travelers.”

Aqib Hassan, Founder and CTO of HelloRoam

Of the total, more than 30,300 downloads have come through the Apple App Store, with an additional 4,900 through Google Play, reflecting particularly strong adoption among iOS users.

HelloRoam offers eSIM plans covering more than 185 countries through over 212 partner carrier networks, allowing users to activate mobile data instantly via QR code without needing a physical SIM card. Plans range from fixed data packages to unlimited daily options and are designed to work alongside a traveler's existing phone number on dual-eSIM devices.

"Reaching more than 35,000 downloads confirms that travelers want a simpler way to get connected the moment they land, without hunting for a local SIM card or paying inflated roaming rates," said Aqib Hassan, Co-Founder and CTO of HelloRoam.

The HelloRoam app currently holds a 5-star rating on both the Apple App Store and Google Play, based on verified customer reviews citing ease of setup and network reliability. The company's plans include 24/7 customer support and a 180-day refund policy on unactivated eSIMs.
