

# Atlanta Basement Design Showcases Finished Basement Projects Across Metro Atlanta

*The Marietta-based remodeling firm gives homeowners a look at completed projects, basement finishing costs, and what goes into a professionally remodeled space.*

MARIETTA, GA, UNITED STATES, September 2, 2026 /EINPresswire.com/ -- Atlanta Basement Design, a full-service basement remodeling company serving the greater Atlanta metro area since 2000, is highlighting its portfolio of completed basement projects to help homeowners better understand what a professionally finished space can look like, what it may cost, and what the renovation process involves. Founded by Judith Smith, the company has spent more than 25 years transforming unfinished basements into functional living spaces while emphasizing careful planning, cost transparency, and competitive pricing.

Basement finishing projects can vary significantly in scope, from open-concept recreation and family rooms to fully customized spaces featuring wet bars, home theaters, bathrooms, guest suites, offices, and other specialty areas. Atlanta Basement Design handles the remodeling process from initial planning through the final walkthrough, including construction needs such as framing, electrical work, plumbing, HVAC, drywall, flooring, and finish work.

For Atlanta homeowners trying to establish a realistic budget, the company currently estimates that basic basement construction generally ranges from \$55,000 to \$80,000. That typically includes HVAC, plumbing, framing, electrical, drywall, trim, insulation, and doors. Specialty finishes such as custom paint, tile, flooring, built-in bars, home theaters, and other personalized features can increase the final investment based on the homeowner's selections and budget, but Atlanta Basement Design completes these items at direct cost to keep the overall budget down and to outcompete their competitors on price.

Cost planning begins before construction. Atlanta Basement Design conducts an on-site evaluation and uses custom 3D CAD designs to map out the proposed space so homeowners can better understand the layout, functionality, and anticipated costs before work begins. The company says its project planning process helps reduce unexpected changes and additional charges during construction.

The company also points homeowners toward its extensive collection of authentic project photography and client videos when researching basement contractors. Its website includes before, after, and progress photos from completed basement projects throughout Metro Atlanta,

allowing prospective clients to see how unfinished square footage has been transformed into living rooms, bathrooms, gyms, theaters, bars, bedrooms, offices, and other usable spaces. Client videos collected over more than two decades provide additional insight into the remodeling process and homeowners' experiences.

Price is another major consideration for homeowners comparing basement contractors. Atlanta Basement Design states that it routinely provides the lowest bid its clients receive, with client testimonials documenting instances in which homeowners saved \$20,000, \$40,000 or more compared with other estimates. Rather than reducing the scope or quality of the finished space to reach a lower price, the company's approach focuses on detailed planning and identifying labor and material costs before construction begins.

For homeowners considering a basement remodel in metro Atlanta, Atlanta Basement Design brings more than 25 years of experience working throughout metro Atlanta and the surrounding Atlanta area. Its licensed professionals each have more than 20 years of experience in their respective fields, and the company offers a five-year unconditional warranty on basement finishing projects.

Atlanta Basement Design also serves homeowners throughout Alpharetta, Smyrna, Kennesaw, Roswell, Johns Creek, Cumming, Canton, Woodstock, Duluth, Decatur, and other communities across Metro Atlanta. Homeowners considering basement remodeling in Atlanta, GA can review completed projects, client videos, pricing information, and remodeling resources on the company's website before requesting an estimate.

For homeowners ready to start planning, Atlanta Basement Design offers a free, no-obligation consultation and estimate. Prospective clients can call 404-974-7100 or visit [atlantabasementdesign.com](http://atlantabasementdesign.com) to discuss their basement, budget, and ideas with the company's team.

Homeowners deserve to understand what they're paying for before construction begins," said Judith Smith, Founder of Atlanta Basement Design. "We've spent more than 25 years showing clients real projects, walking through their options, and planning the space around both their needs and their budget. The goal is to give homeowners a finished basement they're excited about without unnecessary surprises along the way.
