

Affordable Screen & Patio Enclosures Grows Kenosha Showroom for Hands-On Outdoor Living

Affordable Screen & Patio Enclosures' expanded showroom lets homeowners see full-size displays and compare materials before deciding.

KENOSHA, WI, UNITED STATES, September 2, 2026 /EINPresswire.com/ -- Affordable Screen & Patio Enclosures, a family- and veteran-owned outdoor living company with more than 35 years of industry experience, has significantly expanded its Kenosha showroom, giving homeowners throughout Southeastern Wisconsin and Northern Illinois an opportunity to see, experience, and compare outdoor living products in person before deciding what is right for their homes.

The expanded showroom was designed to take some of the guesswork out of planning a major outdoor living project. Rather than relying solely on photographs, brochures or computer renderings, homeowners can walk through displays, operate products, compare materials and explore design options firsthand.

The Kenosha showroom features a full-size all-glass Solarium, a full-size custom Pavilion, two full-size Motorized Pergolas and a Fixed Pergola display, along with Patio Cover displays. Visitors can also explore Sunroom and Screen Room materials, Motorized Retractable Screens, window systems, roof styles, flooring, colors and other options available for creating customized outdoor living spaces.

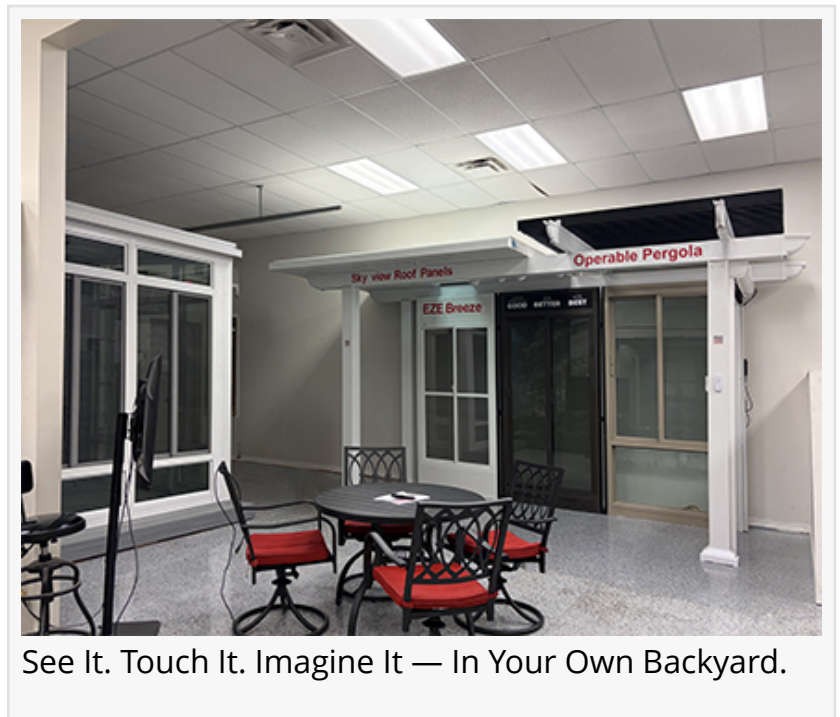

"Homeowners are making a significant investment in their homes, and we believe they should have the opportunity to see and experience their options firsthand before making that decision,"

Visit our showroom where you can experience outdoor living yourself.

said Dave Maloney, founder of Affordable Screen & Patio Enclosures. "You can look at pictures all day, but there's a big difference between seeing something in a photograph and actually standing inside it, operating it and seeing the materials and quality for yourself."

At the showroom, homeowners can see Motorized Pergolas open and close at the push of a button, compare Motorized and Fixed Pergolas, step inside an all-glass Solarium, view Pavilion and Patio Cover displays, and explore different window and enclosure systems for creating Screen Rooms, three-season rooms and four-season living spaces.

See It. Touch It. Imagine It — In Your Own Backyard.

Outdoor Living Designed for Midwest Homes

For homeowners in Wisconsin and Northern Illinois, an outdoor living project has to do more than look good. Snow, wind, temperature swings, and changing seasons all play an important role in selecting and designing a structure appropriate for the Midwest climate. Affordable Screen & Patio Enclosures specializes in custom-designed Sunrooms, Screen Rooms and Screened-in Porches, Motorized Pergolas, Fixed Pergolas, Patio Covers and Enclosures, Pavilions, all-glass Solariums, Motorized Retractable Screens and EZE-Breeze 3-season Window Systems. Every project is custom designed for the homeowner and property rather than sold as a one-size-fits-all kit. The company works with homeowners from the initial design and product selection through professional installation of the completed outdoor living space.

The expanded showroom brings many of those choices together in one location, allowing homeowners to see products at a more realistic scale, compare options side by side, and better understand which type of outdoor living space best fits their home, lifestyle, and plans for the space.

More Than 35 Years of Outdoor Living Experience

The expanded Kenosha showroom represents the latest chapter in a company whose roots stretch back more than 35 years.

Founder Dave Maloney, a native of Park Ridge, Illinois, served for 12 years in the United States Marine Corps before establishing Affordable Screen & Patio Enclosures in Florida. There,

Maloney built the company around quality workmanship, professional installation, and outdoor living products designed to meet homeowners' individual needs.

Maloney's involvement in the outdoor living industry has also extended beyond his own company. Affordable Screen & Patio Enclosures has been a member of the Outdoor Aluminum Structures Association (OASA), formerly AAF, since 1998. Maloney served for six years as President of the AAF Mid-Florida Chapter and for two years as Secretary of the State AAF. After relocating the company to Wisconsin, he continued his involvement with the association as a Direct Member.

Maloney later returned to the Midwest and relocated Affordable Screen & Patio Enclosures to Wisconsin. Today, the family- and veteran-owned company serves homeowners throughout Southeastern Wisconsin and Northern Illinois, bringing decades of outdoor living experience to projects designed specifically for homes in the region.

"For us, the showroom is really about helping homeowners make a more informed decision," Maloney said. "When someone can step inside a Solarium, operate a Motorized Pergola, stand beneath a Pavilion or Patio Cover and compare different materials and options in the same place, it becomes much easier to picture what is possible at their own home."

Visit the Kenosha Showroom

The Affordable Screen & Patio Enclosures showroom is located at:

7600 75th Street, Suite 116, Kenosha, Wisconsin 53142

Homeowners can visit the showroom to explore the displays and available design options and schedule a FREE In-Home Design Consultation and Estimate.
