

G2 Users Rank CloudShare #1 across 10 Virtual IT Labs categories in Fall 2026 Report

CloudShare debuted at #1 in the UK and climbed to #1 across Europe and EMEA, in addition to top rankings for usability, implementation, and results.

DENVER, CO, UNITED STATES, September 3, 2026 /EINPresswire.com/ -- [CloudShare](#), leading virtual IT labs and hands-on training platform, today announced that the company earned 40 badges in G2's Fall 2026 reports, including 10 #1 rankings, up from six last season. Every #1 G2 ranking for CloudShare is in the Virtual IT Labs category, where G2 users rated CloudShare highest for usability, implementation, and results (both overall and among small businesses).

Virtual IT Labs Results Index

Results scores for virtual IT labs are shown below. The chart highlights factors that contribute to each product's overall score. Estimated ROI, meets requirements, user adoption and likelihood to recommend are represented in the factor bars.

CloudShare ranked 1st in G2's Virtual IT Labs category.

CloudShare also made its debut in G2's newest regional report, the United Kingdom ranking for Virtual IT Labs, entering directly at #1. That result was part of a broader climb across Europe: CloudShare moved from #2 to #1 in the Europe, EMEA, and Small-Business EMEA regional rankings, giving the company the top regional position for Virtual IT Labs across the UK, Europe, and EMEA this season.

This season's results reflect something we hear from customers every day: that CloudShare is easy to stand up, easy to prove results with, and easy to scale."

Jon Tallman, CPO

One of CloudShare's G2 rankings extended an even longer run: the Small-Business Results Index for Virtual IT Labs marked its fourth consecutive season at #1.

G2 badges are awarded based exclusively on verified customer reviews. To place in a regional Leader quadrant, a product must have at least 10 reviews from users in that region and score well for both customer satisfaction and

market presence (a measure of market share, company size, and reach).

"This season's results reflect something we hear from customers every day: that CloudShare is easy to stand up, easy to prove results with, and easy to scale," said [Jon Tallman](#), Chief Product Officer at CloudShare. "Ten #1 rankings, including a first-time debut at #1 in the UK, tell us that the work we're putting into the platform is showing up directly in the experience our users have. The most rewarding part is that it's our users telling G2 about it, not us."

CloudShare also earned 21 total badges in Virtual IT Labs, 14 in Customer Education, and 5 in Demo Automation this season, with Customer Education holding several top 3 and top 5 positions, including its Small-Business ranking and Enterprise Usability Index.
