

Unique 'Kaleid-A-Forms' Modular Art Display Rdy For Public Release

Kaleid-A-Forms, a unique modular art display system, to be released to Kickstarter soon for funding assistance, and is set for release this Holiday Season.

BENBROOK, TX, UNITED STATES,
September 3, 2026 /EINPresswire.com/
-- KALEID-A-FORMS Launches
Kickstarter Campaign for "[Interactive Art](#) That Adapts to You"

The innovative [modular art](#) system lets people rotate and rearrange Squares and Cubes to create billions of unique visual designs, bringing creativity, interaction, and personal expression to the art experience.

KALEID-A-FORMS an innovative interactive art concept from Aim True North LLC, is bringing a new approach to the traditional [art display](#) with a modular system designed to let people create, rearrange and experience their artwork in constantly changing ways.

Unlike traditional static artwork, KALEID-A FORMS allows users to interact directly with their display by rotating and rearranging individual Squares and Cubes to create new visual compositions. The system combines art, geometric patterns, creativity and hands-on interaction in a unique experience designed to encourage exploration and personal expression.

The basis of 1 Billion + possible designs in Kaleid-A-Forms Squares

With an arrangement of 16 Squares, KALEID-A-FORMS can create over a billion possible designs. The Cube format expands the creative possibilities even further, offering over a trillion potential design combinations.

The concept is designed to give people more than a finished piece of artwork. Instead, KALEID-A-FORMS creates an ongoing creative experience where users can continually change their display and discover new patterns and arrangements.

The system incorporates a patented magnetic hub backing plate and an engineered "Easy Lift" edge feature designed to allow individual Squares to be rotated without disturbing neighboring pieces. This makes it easier for users to interact with their artwork and explore new configurations. KALEID-A-FORMS is currently progressing through final engineering and pre-production tooling as the project moves toward production. The Kickstarter campaign provides an opportunity for early supporters to help bring the innovative interactive art concept to life.

"Clover Leaf" from 16 Squares, just one of a possible 1 Billion + Kaleid-A-Forms Designs

KALEID-A-FORMS Launches Kickstarter Campaign for Interactive Art That Adapts to You

“

Kaleid-A-Forms creates a dynamic visual show across any space to make it visually engaging, yet easily transforms to instantly create new designs. It is a total modular, reconfigurable art experience.”

*Joshua Mason, Regatta
Product Design*

The project is designed for art and design enthusiasts, creative professionals, interior décor lovers, collectors and anyone interested in exploring the intersection of art, creativity, geometry and interactive design.

KALEID-A-FORMS is about changing the way people experience art, said Aim True North LLC creator, Lawrence Cenotto. Instead of simply looking at a finished design, people can interact with it, change it and create something that feels uniquely their own.

The Kickstarter campaign invites supporters to discover KALEID-A-FORMS and become part of

the journey behind an evolving approach to interactive and reconfigurable art.
