AES International renews Corporate Chartered Financial Planners status with the Chartered Insurance Institute

AES International has renewed its Corporate Chartered Financial Planners status awarded by the Chartered Insurance Institute (CII)

DUBAI, UNITED ARAB EMIRATES, September 3, 2026 /EINPresswire.com/ -- AES, the internationally mobile family and employee benefits advisory firm, with group offices in London and Dubai, has renewed its Corporate Chartered Financial Planners status awarded by the Chartered Insurance Institute (CII).

Corporate Chartered status is one of the highest marks of professional standards in financial planning. It is awarded to the firm rather than to any individual, meaning every adviser at AES International works to the same qualification requirements, the same code of ethics, and the same commitment to putting clients' interests first.

Every firm that holds Corporate Chartered status adheres to an ethical code that underpins broader commitments to professional values. These commitments include putting customers' interests first, investing in the ongoing development of their people's technical skills and knowledge, and supporting wider initiatives that benefit society as well as the growth of the profession.

The renewal reinforces AES's position as one of the region's leading financial life management firms. And, as the only certified investment fiduciary across Asia, the Middle East and Africa, AES advises internationally mobile British and European families on financial life management, and the group works with employers across the UK and UAE on employee benefits and group medical insurance.
