Yi He by Haoran Wan Receives Gold A' Design Award in Interior Design

Yi He Urban Resort Hotel Recognized for Excellence in Interior Space and Exhibition Design

Yi He

COMO, CO, ITALY, September 4, 2026 /EINPresswire.com/ -- The A' Design Award has announced Yi He, a hotel interior project by Haoran Wan, as a Gold A' Design Award winner in the Interior Space and Exhibition Design category. The A' Design Award is one of the world's most respected and well-recognized design competitions, and the Gold distinction acknowledges work that demonstrates a high level of innovation and meaningful impact within the interior design field. Yi He was selected through a rigorous evaluation process conducted by an expert jury panel. This recognition positions Yi He as a notable example of thoughtful, culturally grounded interior design. The project reflects a sustained commitment to quality and craft throughout its conception and execution.

This recognition holds relevance for the broader interior design industry, where the demand for resort hotels that authentically reflect local culture continues to grow. Yi He responds to this trend by allowing nature to lead the design, bringing surrounding scenery into guest rooms and creating spaces that resonate with their setting. The project aligns with current standards that prioritize regional identity, guest experience, and the integration of natural and built environments. By blending Eastern and Western aesthetics, the design offers practical value to travelers and operators alike. The approach demonstrates how interior design can enhance a hotel brand while serving diverse visitor needs.

Ascending the steps from the entrance, the lobby opens dramatically, blurring the boundaries

between city life and vacation time. Mountain waterfalls, garden views, and traditional residential elements such as dougong brackets and moon gates establish a symbiosis between humanity and nature. A marble landscape pattern complements a large leather carving of the Western Sea map on the wall backdrop, while a moon gate leads to a lobby bar divided by a rhododendron themed screen into a tea room and an all day dining restaurant. Green plants in white porcelain vases, blue water patterned paintings, and the red of a master chair compose a scene of mountains, water, green trees, and red flowers. Guest rooms themed by floor offer distinct experiences for business travelers, vacationers, families, and leisure seekers.

The Gold A' Design Award recognition for Yi He may serve as a foundation for future projects that further explore the projection of regional landscape and culture into interior design. The achievement supports continued exploration of urban resort hotels with distinctive regional characteristics, where abstract modern design language integrates seamlessly with natural elements. This recognition offers motivation to pursue further refinement and innovation in hospitality interiors that honor their cultural context.

Interested parties may learn more about Yi He, view the design in detail, and explore the work of its creator at the dedicated page provided by the A' Design Award.

About Haoran Wan
Haoran Wan is a senior expert based in China, holding a Master's degree in Project Management from the University of Quebec at Chicoutimi, Canada. Drawing on a strong professional background and versatile abilities, particularly in civil engineering, Haoran Wan has become a key contributor to local modernization and engineering technology innovation. With a systematic approach to project lifecycle management, Haoran Wan excels in cross-departmental collaboration and engineering quality control. This expertise effectively improves building operational efficiency, engineering standards, and service levels.

About Ganzhou Xiangguang Industry
Yihe Hotel is located on the shore of Lushan West Sea Lake in Wuning County, Jiujiang City, Jiangxi Province, China, and enjoys convenient transportation access. The hotel adopts a modern design style that integrates with the landscape of Wuning. It is an intelligent high end hotel that brings together luxurious guest rooms, banquet halls, conference rooms, and Chinese private dining rooms of varied styles. The property reflects a careful balance between contemporary hospitality and its natural surroundings.

About the Gold A' Design Award Recognition
The Gold A' Design Award is granted to designs that demonstrate a high level of innovation and a significant impact on their intended audience. In the Interior Space and Exhibition Design category, entries are assessed against criteria including innovative use of space, material selection, functional layout, color scheme mastery, lighting design, sustainable practice, cultural relevance, and aesthetic appeal. Additional considerations include ergonomic factors, design

consistency, attention to detail, budget management, accessibility compliance, incorporation of technology, and adaptability of design. Recognized as a notable achievement, the distinction identifies designs that serve as benchmarks for quality within the field. Winning works are characterized by strong technical attributes, considered artistic skill, and meaningful creative qualities.

About A' Design Award
The A' Interior Space, Retail and Exhibition Design Award is a highly respected competition that promotes excellence and innovation within the interior design industry. It welcomes a diverse range of participants, including independent designers, leading interior design agencies, innovative companies, furniture manufacturers, and established brands. Entries are blind peer-reviewed and evaluated against pre-established criteria by an expert jury panel of design professionals, industry experts, academics, and journalists. Organized annually since 2008 and now in its 18th year, the A' Design Award is an international and juried competition open to entries from all countries and across all industries, driven by a philanthropic mission to recognize and promote superior products and projects that advance and benefit society and help create a better world.
