Tshirt Manufacturer and Exporter in India Esplandea Incorporation Expands Factory Access

Authentic factory video, real production images and verified operating facts help global apparel buyers assess Tirupur manufacturing capabilities.

TIRUPUR, TAMIL NADU, INDIA, September 8, 2026 /EINPresswire.com/ -- Esplandea Incorporation, a Tirupur-based tshirt manufacturer and exporter established in 2008, has expanded public access to verified factory information through a new digital production tour, authentic facility photography and a dedicated Company Facts resource for international apparel buyers.

> International buyers need evidence they can review before an enquiry. Authentic factory media and verified operating facts make programme assessment clearer."
>

The update gives sourcing teams a clearer view of the company's in-house production workflow, from knitting, fabric inspection and dyeing through finishing, sewing, printing, garment inspection, pressing and packing. The one-minute factory tour and real process photographs were captured at Esplandea Incorporation's own Tirupur facility.

For buyers comparing tshirt manufacturers in India or tshirt exporters in India, the new resources bring core capability information into one place. Esplandea Incorporation reports a 50,000-square-foot facility, 150+ production machines, 250+ skilled workers and capacity for 2,00,000+ garments per month. The company supports export programmes for buyers in 30+ countries.

Esplandea Incorporation manufactures polo, round-neck, oversized, printed and organic-cotton T-shirts, as well as corporate apparel, promotional apparel and school-uniform programmes. The company works with private-label, bulk and custom requirements for domestic and international markets. Programme planning covers fabric composition and GSM, size specifications, colour approval, printing or embroidery, labels, packing and export documentation.

Quality planning can include AQL 1.5 inspection where agreed for the buyer programme. The

company publishes information about OEKO-TEX Standard 100, GOTS for applicable organic programmes, ISO 9001:2015 and Government of India export authorization. Buyers are encouraged to request current documents and verify certificate scope and validity for the intended product and transaction.

“International buyers need evidence they can review before an enquiry,” said Ravi Prasath of Esplandea Incorporation. “By publishing authentic factory images, a complete process video and verified operating facts, we are making it easier for sourcing teams to understand our capabilities and prepare accurate programme specifications.”

tshirt manufacturers tirupur

The digital factory tour is available on Esplandea Incorporation’s Our Factory page. The Company Facts page provides the company’s legal identity, Tirupur address, GSTIN, IEC export code, founding date, production information and official contact details in a single reference source.

The update is designed to support buyers evaluating a tshirt manufacturer in Tirupur, a bulk tshirt manufacturer in India, a polo tshirt manufacturer in India, a corporate tshirt manufacturer in India or a private-label apparel production partner. Commercial terms and production schedules are confirmed in writing only after the programme specification and approval sequence have been reviewed.
