

One Water Systems Announces 20% Web Offer on ELITE 15 Water Filtration System

Limited time offer gives Southern California homeowners an opportunity to upgrade to whole house water filtration through October 5, 2026

SAN DIEGO, CA, UNITED STATES, September 7, 2026 /EINPresswire.com/ -- [One Water Systems](#), a Southern California provider of whole house water filtration and water conditioning solutions, has announced a limited-time web offer providing 20% off any ELITE 15 system through October 5, 2026.

The promotion is designed to give homeowners an opportunity to consider an advanced whole house water treatment solution as they evaluate options for improving water quality and addressing common hard water concerns.

“

ELITE 15 was developed to provide long term filtration and water conditioning in one system, and this limited time web offer gives qualifying homeowners another opportunity to explore the technology.”

said Kevin Worsfold, Founder of One Water Systems.

The ELITE 15 combines whole house filtration technology with salt free water conditioning. According to One Water Systems, the system uses catalytic carbon, KDF media and Vortech technology as part of its filtration approach, while its integrated scale control technology is designed to help address mineral scale associated with hard water.

Whole House Water Filtration and Salt Free Water Conditioning

The ELITE 15 is designed for whole home applications, providing treated water throughout the home rather than limiting filtration to a single drinking-water tap. One Water Systems states that its Elite Series technology is designed to reduce chlorine, chemicals, heavy metals, volatile organic compounds, pesticides and herbicides from water.

The system incorporates high activity catalytic carbon and KDF media within its filtration design.

One Water Systems also promotes the ELITE 15 as a [Salt Free Water Softener](#) and [Cartridge Free Water Filtration](#) solution, eliminating the routine salt and cartridge replacement associated with some conventional water treatment approaches.

The company says the ELITE 15 is backed by a 15-year warranty and is intended to provide long term water filtration and conditioning for residential customers.

Limited Time Web Offer

Under the newly announced promotion, homeowners can receive 20% off any ELITE 15 system when taking advantage of the company's web offer. The promotion is scheduled to remain available through October 5, 2026, subject to applicable terms and availability.

Homeowners interested in learning more about the ELITE 15 can contact One Water Systems for a water evaluation and information about available residential water treatment options. The company provides water filtration and conditioning services from its Carlsbad location and serves homeowners throughout Southern California.

About One Water Systems
