Connecting Software named a supplier for UK Government procurement platform, G-Cloud 15

Connecting Software is offering its products for the first time on G-Cloud 15, a platform for UK Government agencies to purchase pre-approved cloud solutions.

VIENNA, AUSTRIA, September 8, 2026 /EINPresswire.com/ --

-Following a high-level vetting process, Connecting Software will be offering: CB Exchange Server Sync for Google Workspace; Document Extractor for Salesforce; CB Exchange Server Sync; CB Dynamics 365 Seamless Attachment Extractor; SharePoint Structure Creator and CB Dynamics 365 to SharePoint Permissions Replicator on the platform

-This forms part of Connecting Software's ongoing work with governments around the world, including over 20 national departments, as part of more than 40 active public sector deployments worldwide.

Today, Connecting Software has announced that following a successful vetting of cybersecurity standards, support capabilities and past performance, they have been named as a supplier on G-Cloud 15, the latest iteration of Government Commercial Agency's (GCA) cloud procurement framework. The platform allows UK government agencies to purchase and subscribe to pre-approved cloud products without the need for extensive tender processes – vastly streamlining the process of getting access to cutting edge technology.

Connecting Software has worked extensively with governments and public sector organizations around the world, including the UK. Connecting Software has worked in these organizations to bring down costs associated with time-wasting IT tasks and storage fees and increase efficiency. It has provided resilience to cloud outages and IT disaster scenarios through their Business Continuity Planning (BCP) solutions. With it's newest solutions, it has worked with large organizations with over 100,000 users to effectively synchronize multiple cloud environments. Notable customers in Britain include Cancer Research UK, National Heritage Fund and the Met

Office.

Government Commercial Agency (GCA) is the UK's central commercial and procurement organization, connecting public and private sectors to achieve the best outcomes for the UK and it's citizens. GCA uses its commercial expertise to create a simpler procurement experience that redirects valuable resources into essential public services – creating value for the nation.

Connecting Software's products will be available in the category of Lot 2b - Software as a Service (SaaS), and include:

-CB Exchange Server Sync for Google Workspace: Migration and bidirectional server-side synchronization between Google Workspace and Exchange accounts, engineered for scale, reliability, and strict security.

-CB Dynamics 365 to SharePoint Permissions Replicator: Synchronize the security permissions between Microsoft Dynamics 365 and SharePoint, ensuring safety and privacy are never compromised.

-CB Exchange Server Sync: Seamless and secure synchronization between Microsoft Exchange accounts with full support of email, calendar, tasks and contacts..

-CB Dynamics 365 Seamless Attachment Extractor: Automatically move email and file attachments to secure external storage—freeing up valuable Dynamics 365 space, reducing Dataverse storage costs, and keeping user workflows seamless.

-Document Extractor built for the Salesforce PlatformTM: Saving valuable storage space on Salesforce by easily and automatically moving files to SharePoint, without changing how users work in either system..

-SharePoint Structure Creator: Automatically create document libraries and folders in SharePoint based on defined rules and avoid reaching unique permission scope limitations – saving time and headaches.

Thomas Berndorfer, CEO of Connecting Software said: "Working with high-security organizations is a core part of our ethos at Connecting Software. Government agencies expect solutions that not only deliver great results but are also airtight in terms of protecting users and critical data – it's why we've been trusted in the public sector again and again. We're motivated by this chance to work with UK government agencies through G-Cloud 15 and hope to build on our extensive track record tackling complex IT problems through versatile and cybersecure solutions"

All of the products listed are also available to business customers across the private sector. To find out more, please visit our website: https://www.connecting-software.com/

END

About Connecting Software:

Connecting Software has been providing software solutions for synchronizing and migrating data and connecting enterprise systems for over two decades. It serves over 1000 customers globally, particularly in highly regulated sectors such as finance, the public sector, and defense.

Connecting Software's solutions work automatically in the background to support compliance requirements, increase productivity, and improve security. They easily integrate with popular business applications such as Microsoft Dynamics 365, Office 365/Microsoft 365, SharePoint, Google Workspace and Salesforce. Connecting Software provides a suite of ready made solutions for Business Continuity Planning and multi-cloud synchronization. They also incorporate proven, cutting-edge technologies such as blockchain for data integrity and authenticity, and data diodes for unidirectional secure data transfer in sensitive environments. This strategic application of advanced technologies ensures effectiveness and reliability for clients' critical operations.

About Government Commercial Agency (GCA)

GCA is an executive agency of the Cabinet Office, supporting the public sector to achieve maximum commercial value when procuring common goods and services.
