

Evergreen Management Adds Two Ohio Memory Care Communities to Growing Portfolio

TOLEDO, OH, UNITED STATES, September 7, 2026 /EINPresswire.com/ -- [Evergreen Management](#), a national senior living operator with a portfolio spanning independent living, assisted living and memory care, today announced the addition of two dedicated memory care communities in Ohio: The [Auberge](#) at River Oaks in Miamisburg and The Auberge at Greenfield Estates in Akron. The additions grow Evergreen's portfolio from 66 to 68 senior living communities nationwide.

The additions expand Evergreen's specialized memory care platform, introduce The Auberge brand to Ohio and further strengthen the company's presence in the state.

The Auberge at River Oaks, located at 2961 W. Spring Valley Pike in Miamisburg, provides specialized care for individuals living with Alzheimer's disease and other forms of dementia. The community features landscaped grounds, secure outdoor areas and welcoming shared spaces designed to promote comfort, connection and engagement among residents, families and friends.

The Auberge at Greenfield Estates, located at 3522 Commercial Drive in Akron, offers a supportive environment designed specifically for individuals living with Alzheimer's disease and other forms of dementia. Its single-story layout allows for comfortable navigation, while private and companion accommodations, natural light and a secure central courtyard provide opportunities for both privacy and social engagement.

With the addition of the two Ohio communities, Evergreen's Auberge portfolio now includes 13 dedicated memory care communities, expanding the brand's presence beyond Texas, Illinois and Wisconsin.

The growth follows Evergreen's significant national expansion in August 2025, when the company acquired operations of 57 senior living communities across 11 states, including 53 [Arden Courts](#) specialized memory care communities.

"The Auberge at River Oaks and The Auberge at Greenfield Estates are excellent additions to our growing memory care platform," said Luke Pile, President and Chief Operating Officer of Evergreen Management. "Both communities have strong foundations and a clear commitment to residents and families. We look forward to supporting the teams already in place, investing in the resources they need and continuing to enhance the quality of care and service residents and families rely on every day."

Evergreen will operate both communities under The Auberge brand and provide its established infrastructure in operations, clinical support, team development and resident-centered care. The transition is intended to preserve the strengths and relationships already in place while giving each community additional resources and long-term operational support.

For residents and families, Evergreen's focus will remain on continuity of care, consistent service and maintaining the trusted relationships that are central to each community.

The addition of The Auberge at River Oaks and The Auberge at Greenfield Estates reflects Evergreen's broader growth strategy of expanding its senior living platform through high-quality communities that complement the company's operational expertise and long-term commitment to specialized care.

About Evergreen Management

Evergreen Management provides comprehensive senior care solutions tailored to the unique needs of each resident. With a focus on personalized care, staff support and long-term stability, Evergreen creates nurturing environments that promote independence and well-being across its communities.
