

Cleveroad Recognized as a Summer 2026 Clutch Global Award Honoree, Third in Software Development Worldwide

Cleveroad is recognized as a Summer 2026 Clutch Global Award honoree, ranking third in the Software Development category worldwide.

CLAYMONT, DE, UNITED STATES, September 8, 2026 /EINPresswire.com/ -- Clutch, the B2B ratings and reviews platform, has named its [Summer 2026 Global Award honorees in software development](#). [Cleveroad](#), a software engineering company with offices in the United States and Estonia, ranks third in a category that lists 53,946 providers. The Clutch Global Award goes to the top 15 companies in each category by Ability to Deliver, a score built from verified client reviews, clients and experience, and market presence.

The Summer 2026 Clutch Global Award honorees in software development to consider in Q4 2026 are:

Empat
Goji Labs
Cleveroad
Atomic Object
Geniusee
Merixstudio
AgileEngine
Six Feet Up
You are launched
Capital Numbers

Each honoree is profiled below on the basis of its Clutch listing: rating, review count, headquarters, and the services it concentrates on.

Cleveroad

Founded in 2011, with offices in the United States and Estonia, Cleveroad is rated 4.9 from 81 reviews. The company provides [custom software development services](#), web and mobile engineering, AI/ML solutions, IT consulting, IT staff augmentation, and dedicated development teams for clients in healthcare, logistics, retail, fintech, and education.

Empat

A San Francisco-headquartered firm rated 5.0 from 149 reviews. Services cover mobile app development, custom software development, AI development, and web development, with a focus on fintech and healthtech products. Reviewers point to commitment to deadlines and proactive problem-solving.

Goji Labs

A Los Angeles digital product agency rated 5.0 from 89 reviews. It combines mobile app development and custom software development with UX/UI design and product strategy for startups, scaleups, and enterprises. Reviewers cite high-quality deliverables and transparent pricing.

Atomic Object

An employee-owned firm headquartered in Grand Rapids, Michigan, rated 4.9 from 52 reviews, with further offices in Ann Arbor, Chicago, and Raleigh. Work spans custom software development, mobile app development, legacy modernization, and AI integration. Reviewers note technical expertise and alignment with client needs.

Geniusee

A Warsaw-headquartered AI consulting and engineering firm rated 5.0 from 71 reviews. Services run across custom software development, mobile app development, AI development, cloud consulting, DevOps, and web development. Reviewers cite proficiency across technologies and reliable delivery.

Merixstudio

A Poznań-headquartered firm rated 4.8 from 97 reviews. It combines AI development, custom software development, and web development with product discovery, design, and legacy modernization for mid-size and enterprise clients. Reviewers highlight flexibility in project scope and attention to quality assurance.

AgileEngine

A Boca Raton, Florida-headquartered company founded in 2010 and rated 5.0 from 63 reviews. Services cover custom software development, AI development, IT staff augmentation, mobile app development, and web development for enterprises and venture-backed startups.

Six Feet Up

A Fishers, Indiana-based consultancy founded in 1999 and rated 5.0 from 26 reviews. Its Python-focused practice covers custom software development, AI development, business intelligence and big data, and web development. Reviewers cite a collaborative and proactive approach.

You are launched

A Limassol, Cyprus-based firm rated 5.0 from 59 reviews. It delivers mobile app development and custom software development for startups, from product discovery and UX/UI design

through MVP development and post-launch support. Reviewers note proficiency in MVP development.

Capital Numbers

A Kolkata, India-headquartered digital engineering company founded in 2012 and rated 4.8 from 237 reviews. Services include custom software development, AI development, application testing, DevOps, IT staff augmentation, and web development. Reviewers cite effective communication and cost-effective delivery.

"Software development is the widest field Clutch ranks, so finishing third says something specific about how our delivery holds up against every kind of competitor," said Ivan Stepankov, head of growth and partnerships at Cleveroad. "Every input to that award comes from clients who agreed to be interviewed about work we shipped."

About Cleveroad

Cleveroad is a custom software development company founded in 2011, with offices in the United States and Estonia. The company builds web and mobile applications, AI/ML solutions, and dedicated development teams for businesses in healthcare, logistics, retail, fintech, and other industries. Cleveroad serves clients across North America, Western Europe, and the Middle East.

Cleveroad delivers the work behind those reviews under three engagement models, chosen to match a project's scope and budget. A traditional human-led team is the baseline. An AI-assisted team runs at a 30% lower development budget, and an AI-native team with a minimal core and strict human oversight at 50% lower. Every model runs under ISO 9001 and ISO/IEC 27001-certified processes, with cloud infrastructure built on Amazon Web Services, where Cleveroad is a Select Tier Partner.
