

JAN-PRO of Charlotte Outlines Cleaning Requirements Specific to Financial Institutions

Charlotte is the second-largest banking center in the United States; the overview covers security screening, discretion, and multi-site consistency.

CHARLOTTE, NC, UNITED STATES, September 8, 2026 /EINPresswire.com/ -- JAN-PRO Cleaning & Disinfecting in Charlotte has published an overview of the cleaning requirements specific to banks and financial institutions, a sector Charlotte — the second-largest banking center in the United States — has in greater concentration than almost any other market.

Financial facilities combine a customer-facing environment maintained as part of brand presentation with security requirements governing who can be in the building and when. According to the overview, cleaning programs in the sector typically account for:

Customer-facing areas maintained to a defined standard. Lobbies, teller areas, and client meeting rooms are cleaned on a documented cadence, with attention to glass, floors, and high-touch surfaces.

Background-screened, consistent crews. Background screening is a standard requirement in the sector, and financial facilities typically require that the same vetted personnel service the building over time.

Discretion around sensitive areas. Crews trained for financial environments work around designated spaces and documents rather than through them.

After-hours scheduling and access procedures. Much financial facility cleaning occurs outside business hours, which requires familiarity with alarm, lockup, and access protocols.

Standardization across locations. Multi-site institutions typically standardize cleaning programs across branches and offices under one documented scope.

"In banking, the cleaning is part of the brand, whether anyone says so or not," said Kim Blythe, President & Owner at JAN-PRO of Charlotte. "The part people outside the industry tend to miss is the security side. These buildings need crews who are vetted, consistent, and trusted to be there after hours. That is a different kind of cleaning relationship than most offices need."

With its concentration of financial headquarters and regional operations, the Charlotte market extends from downtown Charlotte to branch and operations locations across Monroe, Concord, Statesville, Salisbury, Gastonia, Hickory, and Upstate South Carolina. The office provides [commercial cleaning services in Charlotte](#), [financial institution cleaning in Charlotte](#), and [janitorial services in Charlotte](#). Facility walkthroughs are available by request at (704) 553-8007.
