

Kelyniam Global and Lovell Announce Partnership to Expand Access to Custom Cranial Implants for VA, DoD

Partnership expands federal access to Kelyniam Global's custom cranial implants and regenerative neurosurgical solutions.

PENSACOLA, FL, UNITED STATES, September 10, 2026 /EINPresswire.com/ -- Lovell® Government

“

Kelyniam Global has built an impressive portfolio that combines patient-specific technology with innovative biomaterials and regenerative solutions.”

Chris Lovell, CEO of Lovell Government Services

Services and Kelyniam Global, Inc., a leading provider of custom cranial implants and regenerative neurosurgical solutions, announced today that they have partnered to serve federal healthcare systems, including the Veterans Health Administration (VHA), Military Health System (MHS), and Indian Health Service (IHS).

Through the partnership, Lovell Government Services will serve as Kelyniam Global's Service-Disabled Veteran-Owned Small Business (SDVOSB) vendor, helping expand access to the company's cranial reconstruction solutions

through established federal contracting channels.

Kelyniam Global specializes in patient-specific cranial implants designed to support surgeons in cranial and craniofacial reconstruction procedures. Its custom implant portfolio includes FUSION™ (BCP PEEK), CCI/CSI (PEEK), and CustomBone™ (pure hydroxyapatite), providing surgeons with multiple biomaterial options based on individual patient and procedural needs.

Kelyniam's regenerative neurosurgical platform also includes Osteopore™ bioscaffolds, designed for burr holes and peripheral bony voids associated with autograft cranioplasty. Together, these technologies provide a comprehensive portfolio of patient-specific cranial reconstruction and regenerative solutions, with additional product launches planned for 2027.

As Kelyniam Global's SDVOSB vendor, Lovell is excited to help make these solutions more accessible to federal healthcare providers. Kelyniam Global products are [pending addition to / available through] Lovell's federal contract vehicles, including the Department of Veterans Affairs Federal Supply Schedule (FSS), GSA Advantage, the Defense Logistics Agency's Electronic Catalog

(ECAT), and the Department of Defense's Distribution and Pricing Agreement (DAPA). Making products available through established contract vehicles can simplify the acquisition process while helping federal agencies meet their SDVOSB procurement goals.

"Cranial reconstruction is an incredibly specialized area of care where surgeons need solutions tailored to the individual patient," said Chris Lovell, Major, USMC (Ret.), CEO of Lovell Government Services. "Kelyniam Global has built an impressive portfolio that combines patient-specific technology with innovative biomaterials and regenerative solutions. We're proud to partner with their team and help expand access to these technologies for the physicians caring for Veterans, service members, and their families."

"We're honored to partner with Lovell, providing custom cranial implants and bioscaffolds that advance regenerative neurosurgery for the men and women who serve and protect our nation," said Kris Renton, CRO/COO of Kelyniam Global.

About Kelyniam Global

Kelyniam Global, Inc. specializes in the rapid production of patient-specific cranial implants using computer-aided design and manufacturing with advanced medical-grade biomaterials. The company develops, manufactures, and distributes custom cranial and craniofacial implants for patients requiring reconstruction.

Kelyniam works closely with surgeons, healthcare systems, and payors to provide patient-specific solutions designed to support positive clinical and cost-of-care outcomes.

The graphic features a light beige background. At the top right is a circular seal with a laurel wreath border, containing the text "Service Disabled Veteran Owned Small Business" and "SDVOSB" in the center, with "cVe" below it. To the left of the seal, the word "K E L Y N I A M" is written in blue, with the tagline "Customized Precision. Expedited." in grey below it. Below this, it says "IN PARTNERSHIP WITH" in red, followed by the "LOVELL" logo in red and "Government Services" in red. To the right of the Lovell logo is a 3D rendering of a human skull with a custom yellow and white cranial implant. At the bottom, a dark blue rectangular box contains the text "Lovell and Kelyniam Global Partner to Expand Federal Access to Custom Cranial Implants and Regenerative Neurosurgical Solutions" in white.
