

Orbital Advisors Joins Esri Partner Network to Revolutionize Satellite-Based Asset Monitoring with GIS Integration

Satellite monitoring leader partners with the global leader in location intelligence to deliver enhanced PHMSA-compliant analytics and real-time visualization.

GOLDEN, CO, UNITED STATES, September 9, 2026 /EINPresswire.com/ -- [Orbital Advisors](#) Inc., a

Partnering with Esri strengthens our mission to deliver high-impact spatial insights."

*Ashton Jackson, CTO of
Orbital Advisors*

premier provider of satellite-based asset monitoring solutions, today announced that it has officially joined the [Esri](#) Partner Network (EPN) as a Member. This strategic partnership integrates Orbital Advisors' advanced satellite analytics with Esri's world-leading ArcGIS System, empowering organizations to make faster, smarter decisions through location intelligence.

The partnership marks a significant milestone for Orbital

Advisors, headquartered in Golden, Colorado. By joining the EPN, Orbital Advisors gains access to specialized ArcGIS resources, enabling the company to offer seamless GIS-compatible integration with customer platforms. This collaboration directly supports Orbital Advisor's mission to push the bounds of what is possible in asset monitoring.

Enhanced Benefits for Customers

The synergy between Orbital Advisors' high-frequency satellite intelligence and Esri's location information provides customers with several key benefits:

1. **Advanced GIS Integration:** Customers can now integrate results from all of Orbital's monitoring practices directly into their preferred Esri-based GIS platforms.
2. **Frequent Threat Detection and Release Identification:** PHMSA-compliant surface condition monitoring aids operators in resolving surface change, encroachment, ground disturbances, gas leaks and liquid spills.
3. **Comprehensive Asset Visibility:** Weekly all-weather monitoring for construction and erosion, alongside nightly coverage to detect fires, can now be visualized within the ArcGIS ecosystem.
4. **Data-Driven Decision Making:** Leveraging Esri's location intelligence helps organizations solve complex business problems by identifying trends and threats across vast asset networks.

5. Specialized Monitoring: Continuous monitoring of river crossings, dredging operations, and forestry health can be better analyzed using Esri's advanced spatial analysis tools.

A Shared Vision for Innovation

"Partnering with Esri strengthens our mission to deliver high-impact spatial insights," said Ashton Jackson, CTO of Orbital Advisors. "By leveraging the ArcGIS System, we help organizations unlock new opportunities and resolve critical operational challenges."

Jesse Hughes, Co-Founder and CEO of Orbital Advisors, added that the company is "excited to continue pushing the bounds of what is possible" as customers push them farther and faster than imagined over the last few years.

About Orbital Advisors Inc.

Based in Golden, CO, Orbital Advisors Inc is a leader in satellite-based monitoring for critical infrastructure. The company provides GIS-compatible analytics for damage prevention, asset protection and leak detection, as well as PHMSA-compliant ROW monitoring, all-weather erosion monitoring, and nightly fire detection.
