

Calian showcases growing Allied defence capabilities as Canada takes centre stage at MSPO 2026

KIELCE, POLAND, September 9, 2026 /EINPresswire.com/ -- During MSPO 2026, Calian Group Ltd, (TSX: CGY) will showcase its growing contribution to NATO and Allied operational readiness. MSPO 2026 conference will take place September 8 to 11 in Kielce, Poland.

Canada is Lead Nation at this year's exhibition, bringing its largest-ever presence to MSPO as it assumes greater responsibility for European and transatlantic security.

Calian arrives with more than 15 years of experience supporting NATO and Allied forces across over 75 large-scale exercises. Its work spans strategic and operational-level training, exercise design, scenario development, wargaming and specialist operational support.

Calian currently supports NATO's Joint Warfare Centre and Joint Force Training Centre. Recent work includes STEADFAST DETERRENCE, involving all 32 NATO Allies, and STEADFAST FOXTROT, which examined the deployment, reinforcement and sustainment of forces across Europe in contested environments.

Calian has also secured recent contracts supporting operational planning, Joint All Domain Operations, future exercise environments, and Chemical, Biological, Radiological and Nuclear training.

"MSPO provides an important platform to demonstrate how Canadian defence expertise is strengthening Allied readiness. Calian brings the experience, technologies and partnerships needed to help forces train, operate and make decisions in increasingly complex environments", added Roch Pelletier, Regional Vice President Calian UK and Europe.

Calian's Allied defence presence continues to expand. In August 2026, Calian UK secured a CAD \$296 million, 15-year agreement with Raytheon UK to support the modernization of British Army collective training.

As Calian expands its presence across NATO Allied nations, MSPO is a strategic platform to engage partners, demonstrate proven capability, and reinforce Canada's role in strengthening collective defence and operational readiness.

At MSPO, Calian will highlight sovereign, Allied-ready capabilities designed to help forces train, connect and operate with confidence across complex environments:

Next-generation war fighter training to accelerate readiness and decision advantage
Secure satellite communications that keep deployed forces connected in contested environments

Jamming-resilient GNSS technologies that protect positioning, navigation and timing when reliability is mission-critical

Visit Calian at [Canada Pavilion / 7-D05] during MSPO 2026.

About Calian

www.calian.com

For over 40 years, Calian has delivered mission-critical solutions when failure is not an option. Trusted worldwide, we empower organizations in critical industries to overcome obstacles, manage risks and drive progress. By combining the expertise of our people, proven industry insight, cutting-edge technology, bold innovation and global reach, we deliver tailored solutions that solve complex challenges. Headquartered in Ottawa, Canada, with over 6,000 people around the world, Calian's solutions protect lives, strengthen security, foster global connectivity and drive economic progress, making a lasting impact where and when it matters most.
