

SpaceHawk GPS Wins 2026 Best GPS Tracker Award With Site Relaunch

SpaceHawk GPS Wins 2026 Best GPS Tracker Award With Site Relaunch

TEMECULA, CA, UNITED STATES, September 9, 2026 /EINPresswire.com/ -- SpaceHawk GPS won the 2026 Best GPS Tracker Nationwide award from Top Business Awards US. Its relaunched site puts every model, price and plan on one screen, with a US phone line staffed seven days a week.

SpaceHawk GPS, a vehicle and asset tracking brand operated by GPS Tracker Shop LLC, has been named Best GPS Tracker Nationwide in the 2026 edition of Top Business Awards US. The company announced the award alongside a full relaunch of spacehawkgps.com.

Why the award was given

Top Business Awards US names one winner per category each year and charges no entry, submission or membership fee. Its published selection reasoning cited SpaceHawk review coverage that can be checked across three separate platforms rather than one, along with the company's decision to publish data-plan pricing instead of routing buyers to a sales call. The register describes its awards as editorial opinion informed by public records, not certification, and publishes its four-stage methodology in full.

What changed on the site

SpaceHawk GPS Wins 2026 Best GPS Tracker Award With Site Relaunch

The relaunch was built around a single question: can someone decide what to buy without calling us?

- Rebuilt navigation moves a visitor from homepage to the right model in two clicks.
- A comparison table shows every SpaceHawk model with price, plan and best use.
- Device price, plan cost and warranty terms now sit together on one page.
- Buy buttons appear wherever a reader is ready, one clear action per screen.
- Published specifications include the IP67 rating and update speeds from three seconds.
- Pages are built mobile first and rebuilt for speed on cellular connections.
- Setup is shown as an image walkthrough instead of described in a paragraph.
- Customer video reviews and named written reviews replace anonymous stock testimonials.
- A founder section and a US phone line name the people behind SpaceHawk.

Pricing

The SpaceHawk tracker sells for \$39.95. Monthly plans begin at \$9.95 with a two-year prepay, and a separate model at \$249.95 includes 12 months of service, after which the owner renews or moves to a monthly plan. Every unit carries a lifetime warranty and a 30-day money-back guarantee, with phone support staffed in the United States seven days a week.

Founder comment

"We rebuilt the site around the questions people actually ask us on the phone, and the first one is always what it costs," said Ryan Horban, Founder of SpaceHawk GPS. "In this category you usually have to hand over your number to find that out. We decided the price, the plan and the warranty should be on the page. If a customer can see all of it before they buy, we get fewer arguments later. The award reflects that more than it reflects anything about the hardware."

About Top Business Awards US

Top Business Awards US is a national register recognizing one winning business per city and business type each year, selected through a published four-stage methodology and funded without entry or membership fees.

Availability

The relaunched spacehawkgps.com is live now. SpaceHawk trackers ship across the United States and are sold directly through the site and through Amazon. The 2026 award page, including the selection reasoning and category methodology, is published by Top Business Awards US.

About SpaceHawk GPS

SpaceHawk GPS is a GPS tracking device brand operated by GPS Tracker Shop LLC, headquartered in California. The company sells magnetic, IP67-rated GPS trackers for vehicles, trailers and equipment to consumers and businesses nationwide, backed by a lifetime warranty, a 30-day money-back guarantee and United States based support.
