“For those of us who have worked in the oil and gas industry for years, we understand the level of attention it can take to manage an investment. For those who’ve inherited their rights, the reality of ownership may be more complicated than expected,” explained Blake Thompson, manager of Harbor Energy. “Some may fight through it and learn, while others want to get out fast. We are here to help anyone ready to sell receive a fair price.”

If you're having trouble keeping up with what's legal in the oil and gas industry there's a recent post by Harbor Energy explaining the complexities around mineral rights and royalties is now available. https://harborenergyllc.com/having-trouble-keeping-up-with-whats-legal-in-the-oil-gas-industry/. Novice owners of oil and gas rights may struggle to understand all the management complications of inherited mineral rights in Oklahoma and Texas. These issues can affect mineral rights owners in major Texas oil and gas areas such as the Permian Basin, Eagle Ford, and Haynesville.” The TSHA resource site provides a handbook for mineral rights and royalty ownership at https://www.tshaonline.org/handbook/entries/mineral-rights-and-royalties.

Harbor Energy is a family-owned company that buys Oklahoma and Texas mineral rights. The company offers a personalized and transparent approach to purchasing mineral rights and royalties from owners throughout the United States. The team begins by researching the status of a drilling area, ownership, and other details impacting the property. After reviewing the

property, Harbor Energy can provide a fair, no-obligation offer when appropriate. Individuals may sell mineral rights for reasons such as simplifying estates and probates, diversifying investments or receiving quick cash.

Additional information for oil and gas rights owners is available on the Railroad Commission of Texas site at https://www.rrc.texas.gov/about-us/faqs/oil-gas-faq/oil-gas-exploration-and-surface-ownership/. Topics include horizontal drilling rights, land rights and drilling limitations.

Owning mineral rights may not have been a choice for some individuals and families. A relative might have made investments in mineral rights and enjoyed managing the complex responsibilities. New owners who inherited royalties and rights may be less enthusiastic about managing the Oklahoma and Texas investments. Oil and gas industry and regulatory issues can be difficult to understand. If it's time to sell mineral rights in Oklahoma and Texas, a professional team can make the work simple and quick.
