Modutek Announces Participation at Semicon India 2026

Modutek Showcases Advanced Wet Processing Equipment and SmartFAB™ AI Platform at Semicon India 2026, Booth #H4014 – Powering the Intelligent SubFab

SAN JOSE, CA, UNITED STATES, September 10, 2026 / EINPresswire.com/ -- Modutek Corporation, one of the world's leading semiconductor equipment manufacturers, is proud to announce its participation in Semicon India 2026, taking place September 17–19, 2026, at Yashobhoomi, New Delhi, India.

Modutek Semicon India

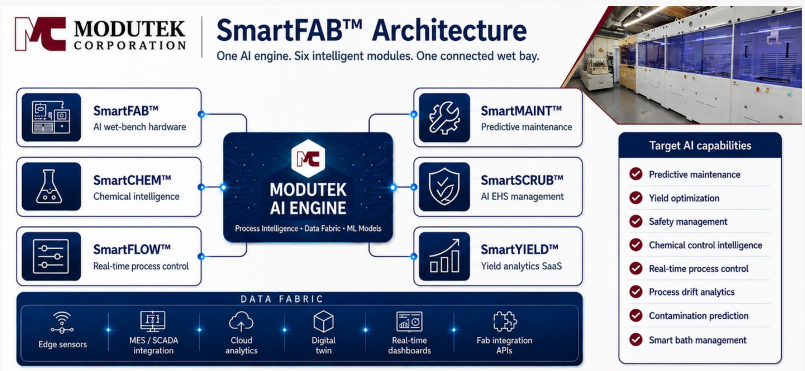

Modutek Wet Bay Portfolio

As one of India's premier semiconductor industry events, Semicon India 2026 continues to spotlight the technologies powering the country's fast-growing chip manufacturing ecosystem. Modutek will exhibit at Booth #H4014, showcasing its full line of wafer processing and wet processing equipment, along with its newest innovation: the SmartFAB™ AI-enabled subfab intelligence platform, built to bring predictive, connected automation to chemical delivery systems, emissions abatement, and process equipment throughout the fab.

Exhibition Highlights:
Advanced Equipment for Semiconductor Fabrication: High-precision etching, cleaning, and

automated wet bench systems featuring cutting-edge chemical monitoring, dosing, and automation technologies for advanced process nodes.

SmartFAB AI Architecture

SmartFAB™ AI-Enabled SubFab Platform: Modutek's new AI engine unifies chemical delivery, emissions abatement, predictive maintenance, and process equipment into a single connected platform, with modules including SmartCHEM™, SmartSCRUB™, SmartMAINT™, and SmartYIELD™. This gives fabs real-time visibility and predictive intelligence across the entire wet bay.

Strategic Industry Engagement: The Modutek team will be available for in-depth discussions with manufacturing and R&D leaders to explore collaboration opportunities and process innovations.

> SmartFAB™ gives our customers one AI engine connecting chemical delivery, emissions monitoring, and predictive maintenance across the entire wet bay environment in real time."
>
> *Vineet Shrivastava, CEO, Modutek Corporation*

"India's fabs are being built with intelligence in mind from the start, and that's exactly what SmartFAB™ delivers: a single AI engine connecting chemical delivery, emissions monitoring, and predictive maintenance across the complete wet bay environment. At Booth #H4014, we'll show how this platform pairs with our custom-engineered wet process equipment to give customers real-time visibility and fewer surprises. We look forward to discussing how these solutions can be adapted to each customer's process requirements." — Vineet Shrivastava, CEO, Modutek Corporation

"Semicon India 2026 comes at a pivotal moment for the country's semiconductor ambitions, as new fabs and OSATs move from planning toward production. Modutek is proud to bring both our proven wet processing equipment and our new SmartFAB™ AI platform to New Delhi, giving Indian manufacturers a path toward the kind of predictive, connected subfab operations that reduce downtime and improve yield from day one." — Douglas Wagner, President, Modutek Corporation

Modutek's participation at Semicon India 2026 underscores its commitment to enabling innovation through reliable, sustainable, and high-performance semiconductor manufacturing solutions. With continued investment in AI-driven engineering and R&D, Modutek is well-positioned to meet the evolving needs of India's semiconductor industry and the broader global

market.

About Modutek Corporation
Founded over 45 years ago, Modutek Corporation is a trusted partner to semiconductor manufacturers worldwide. The company designs and manufactures customized, high-performance wet processing equipment, precision parts cleaning systems, and wafer fabrication equipment, serving customers from small-scale research labs to high-volume fabs.

Modutek designs and builds its systems in-house at its San Jose, California facility, ensuring strict quality control and reliability. Specializing in advanced process control, chemical handling, silicon wafer processing solutions, and automation, Modutek helps customers reduce costs, improve yields, and maximize uptime.

With a focus on sustainability and safety, Modutek's equipment meets or exceeds environmental and regulatory standards worldwide. Customers choose Modutek for its technology, innovation, and long-term commitment to partnership and service excellence.
