

G6X7, the contemporary art and visual technology platform Completes \$20 Million Private Funding Round

Larnaka

G6X7, the contemporary art platform announced the completion of a \$20M private funding round with the participation of investors from Japan and the UAE

LARNAKA, CYPRUS, September 10, 2026 /EINPresswire.com/ -- The investment reflects confidence in [G6X7](#)'s vision to establish a new category of [contemporary art](#) by combining visual imagery with advanced production G6X7, the contemporary art and [visual technology platform](#) founded by Gal

Fridman, announced the completion of a private funding round totaling approximately \$20 million, with the participation of private investors from Japan and the United Arab Emirates.

Dimensions: 66 × 180 cm Materials: Brushed aluminum, layered transparent acrylic, stainless-steel spacers Technique: Multi-layer photographic print Depth: Approx. 12 cm Edition: Limited edition

The investment reflects confidence in G6X7's vision to establish a new category of contemporary art by combining visual imagery with advanced production technologies, transparent materials, physical layers, light, and depth.

“

G6X7 is creating a new category of contemporary art where imagery, transparent materials, light and physical depth create an evolving visual experience.”

Gal Fridman, Founder of G6X7

G6X7's works extend beyond the boundaries of traditional two-dimensional printing. They are constructed as multilayered visual systems in which the image changes according to the viewing angle, the lighting, and the space in which the work is displayed.

By combining photography, advanced materials, and

technology, G6X7 creates a physical and dynamic experience—allowing art to exist as an evolving

spatial presence rather than solely as a static image.

The capital raised will support the expansion of research and development, the advancement of proprietary production and display technologies, and the creation of infrastructure for large scale art works with museum quality finishes. It will also support the development of an international network of collaborations with galleries, cultural institutions, architects, designers, and collectors.

"G6X7 was founded on the belief that art, science, and progress have always moved together," said Gal Fridman, founder of G6X7. "This investment will allow us to expand the boundaries of the medium, develop new ways of creating depth, movement, and transparency, and introduce this distinct visual language to an international audience."

About G6X7

G6X7 is a contemporary art and visual technology platform founded by artist and entrepreneur Gal Fridman. The platform develops multilayered works combining photography, movement, transparency, light, and advanced materials.

Its works explore the human figure, strength, effort, and transformation, creating a visual experience that evolves with the viewer, the surrounding light, and the architectural space.
