Another Critter Gone Announces Expanded 24/7 Animal Removal and Pest Control Services for Cincinnati Metro Area

Another Critter Gone expands to 24/7 for animal removal and pest control services addressing urgent wildlife and pest situations of homeowners and businesses.

Another Critter Gone - Cincinnati Area Removal of Squirrels Now 24/7

Another Critter Gone - Cincinnati Area Pest Control Services Now 24/7

CINCINNATI, OH, UNITED STATES, September 10, 2026 / EINPresswire.com/ -- Another Critter Gone now provides expanded 24/7 call answering for both animal removal and pest control services across the Cincinnati metro area, a direct response to customer demand that improves accessibility. Homeowners and businesses facing urgent wildlife or pest situations no longer need to wait for standard business hours to reach the company, which has served southwest Ohio since 2010. The enhancement addresses a critical gap in service availability because animal intrusions and pest infestations rarely occur on a convenient schedule.

More information is available at https://acrittergone.com/pest-control-services/

Round-the-clock availability proves necessary in this service category because property damage, health hazards, and escalating costs intensify when infestations go unaddressed. Raccoons can force entry into homes, exhibit aggressive behavior, and cause extensive structural harm, while mice multiply rapidly if not controlled immediately. Dead animals left on a property introduce serious health risks that demand prompt removal. The company has built a track record

addressing these urgent situations over more than 15 years, and the expanded answering service ensures that help is reachable whenever emergencies arise.

Another Critter Gone - Cincinnati Area Wildlife and Nuisance Animal Removal

The full scope of animal removal and pest control services is now accessible through the expanded answering system. Wildlife removal covers raccoons, squirrels, bats, skunks, moles, groundhogs, mice, birds, beavers, muskrats, and geese. Stinging insect treatments for hornets, wasps, yellow jackets, and bees start at $299 plus tax. General pest control addressing ants, spiders, earwigs, stink bugs, mud daubers, beetles, and roaches begins at $79 for monthly services. Bed bug and roach treatments are priced at $499 per room and include chemical application plus shop-vacuum removal of visible pests. Specialty services such as dead animal removal and property restoration after animal damage round out the portfolio, demonstrating the company's capacity to handle diverse infestation challenges.

Another Critter Gone serves the Cincinnati metro area and southwest Ohio communities including Fairfield, Forest Park, Batavia, Lebanon, Liberty Township, Loveland, Mason, Maineville, Norwood, Milford, and Sharonville. Pest treatments or animal removal can begin as soon as an hour following the request, dependent upon needs and the situation. The expanded answering service connects callers to faster dispatch and reduced wait times, particularly for emergencies, while same-day or next-few-days service remains standard for most pest treatments.

The company's readiness for round-the-clock service is supported by a team with decades of combined experience in animal and pest management. Another Critter Gone expanded into full pest control treatments in response to customer requests, building on its established wildlife removal expertise. The move to expanded 24/7 answering represents a natural evolution of that growth, reflecting both operational capacity and responsiveness to client needs. Homeowners and businesses can access the expanded answering service any time, day or night, by reaching out via telephone or online.

The company invites inquiries for consultations, inspections, or emergency removal. Additional details and contact options are available at https://acrittergone.com/contact
