PRINCETON, MN, UNITED STATES, September 10, 2026 / EINPresswire.com/ -- Prairie Organic Spirits, produced by Phillips Distilling Company, has been named Best Premium Vodka in the 2026 Rolling Stone Spirits Awards, the publication's annual celebration of the most distinctive spirits and beverage brands of the year.

In announcing the honor, Rolling Stone praised Prairie Organic Vodka for "quietly making one of the best bottles on the market for years," recognizing a spirit that brings genuine character and ingredient-driven flavor to a category often defined by neutrality.

Crafted from 100% USDA-certified organic corn grown on Midwestern family farms, Prairie Organic Vodka offers a naturally soft sweetness, creamy texture and exceptionally smooth finish. Every batch is taste-tested to ensure it meets the brand's exacting standards, creating a versatile vodka that performs beautifully in cocktails while retaining enough character to stand confidently on its own.

"Being named Best Premium Vodka by Rolling Stone is an incredible affirmation of everything Prairie Organic represents," said Laura Donnelly, Vice President of Marketing at Phillips Distilling Company. "We have always believed that premium quality begins with better ingredients and the people who grow them. This recognition celebrates the care of our farming partners, the craftsmanship behind every bottle and our belief that consumers should never have to choose between drinking well and making a better choice."

The Rolling Stone honor builds on a landmark year for Prairie Organic Vodka, which was also named Best Vodka in America in the 2026 Newsweek Readers' Choice Awards. Together, the accolades underscore Prairie Organic's growing recognition as a vodka that combines premium

taste, responsible sourcing and an authentic sense of place.

A pioneer in organic spirits since 2008, Prairie Organic works closely with Midwestern family farmers and supports agricultural practices that protect the land and strengthen farming communities. The brand's commitment extends to initiatives such as Bee Better, which promotes pollinator health and biodiversity in the regions where its ingredients are grown.

"Premium vodka should deliver more than a polished image, it should deliver exceptional quality in the glass," Donnelly added. "Prairie Organic does that by starting at the source and allowing the integrity of its ingredients to come through in every sip."
