

The Dumpster Guy Franchise Expands to Bay County, Florida

Local franchise brings reliable roll-off dumpster rental to Panama City, Panama City Beach, Lynn Haven and surrounding Bay County communities.

FOUNTAIN, FL, UNITED STATES,
September 11, 2026 /

EINPresswire.com/ -- The Dumpster Guy, a franchised roll-off dumpster rental company operating across the Gulf Coast, has expanded into Bay County, Florida. The new franchise serves Panama City, Panama City Beach, Lynn Haven and the surrounding communities from a base in Fountain, and is operated by Blake Mabry, who ran the company's Baldwin County, Alabama location before relocating to open it.

The Dumpster Guy Bay County

“

We are excited to bring The Dumpster Guy to Bay County and give residents and businesses a hassle-free dumpster rental experience, with the same commitment to fair pricing and prompt service.”

Blake Mabry

An Operator Who Moved for the Territory

Mabry spent years in dumpster rentals before taking on the Baldwin County territory, and ran that location for years after. Opening in Bay County meant moving to Fountain, at the inland end of the county, where the new franchise is based.

Dumpster Rental Services for Every Project Size

[The Dumpster Guy Bay County](#) rents three sizes of roll-off container. All three measure 8 feet wide by 14 feet long

and fit within a standard parking space, so a customer choosing a larger container gives up no more of the driveway than a smaller one would take. Only the height and the capacity change between them.

The 10-yard dumpster is the most compact of the three and holds roughly four pickup truck loads. It suits a single-room remodel, a roof tear-off on a smaller home, a garage or attic cleanout, or a landscaping project that produces more than a few bags of debris. For a homeowner working through one room at a time, it is usually the right container.

The 15-yard dumpster is the mid-range option and holds roughly six pickup truck loads. It handles a multi-room renovation, a flooring replacement across most of a house, a larger roofing job, or the clearing of a modest property. It is the size most often chosen when a 10-yard looks tight but a 20-yard looks like more than the job needs.

The 20-yard dumpster is the largest available and holds roughly eight pickup truck loads. Whole-home renovations, new construction, large estate cleanouts and commercial job sites generally call for this size, and contractors running a build tend to default to it rather than risk a second haul mid-project.

Flat Prices, Quoted Upfront

Rental prices are flat and charged per dump rather than per day. The customer fills the container, the company hauls it away, and another load can be ordered if the job runs longer than expected. Delivery, pickup, hauling and disposal are covered in the quoted figure. Each size carries a weight allowance that most loads stay comfortably inside, and going over it is uncommon, though it does add an overage charge. A full breakdown of [dumpster rental prices in Bay County FL](#) is published on the company's website.

Serving Panama City and Bay County

The Dumpster Guy Bay County FL

Dumpster Sizes

Deliveries run throughout Panama City, Panama City Beach, Lynn Haven, Callaway, Springfield, Parker, Mexico Beach, Upper Grand Lagoon, Youngstown and Fountain. Bay County runs from the beach communities on the Gulf up to farmland in the north, and working out of Fountain places the trucks at the inland end of that spread while keeping the coastal routes within a day's work.

Access is the detail that decides whether a delivery goes smoothly, and it is rarely obvious from an address. A low limb, a narrow turn or a soft shoulder is the difference between a container placed where the customer wants it and a truck that cannot make the drop at all. Knowing that before the truck leaves is what Mabry brought with him from Baldwin County.

Residential Projects

Homeowners across Bay County rent roll-off containers for kitchen and bathroom remodels, attic and garage cleanouts, roofing tear-offs, flooring replacement, yard and landscaping work, and clearing a property ahead of a sale or after a death in the family. Estate cleanouts in particular rarely fit in a single container, and per-dump pricing lets that work be planned across several loads rather than guessed at on the first morning.

Commercial and Contractor Work

Contractors use the containers to keep a job site clear and on schedule through a build. A container that arrives late costs a crew a day, so same-day and next-day delivery is offered, and repeat hauls can be scheduled around a project's own timeline. Builders, remodelers, roofers, property managers and commercial landlords make up a steady share of the Bay County customer base.

Storm Debris Cleanup

The franchise also hauls storm debris, which on this stretch of the Gulf Coast is a seasonal reality rather than an occasional job. Fallen limbs, damaged fencing and decking, and water-damaged flooring and drywall all go in a roll-off container. Storm material is bulky rather than heavy, so the volume routinely runs ahead of what a pile looks like from the driveway, and paying per dump costs a property owner less than guessing high.

Ordering a Dumpster in Bay County

Containers can be ordered online or by phone. [The Dumpster Guy Bay County FL](#) is licensed and insured, veteran-owned and operated, and handles disposal in compliance with Bay County requirements.

About The Dumpster Guy

The Dumpster Guy operates franchised roll-off dumpster rental locations across Alabama, Mississippi and the Florida Panhandle, of which Bay County is the newest. Each franchise holds an exclusive territory and is backed by the parent company with operations and procedures manuals, trucks and containers with a built-in cleaning system, negotiated vendor pricing, competitor pricing research and a marketing program built for its market. Territory availability and requirements are published at <https://thedumpsterguyusa.com/start-a-franchise/>
