

# KPI Partners Recognized Among 'Top Organizations with Innovative HR Practices' at the Asia Pacific HRM Congress & Awards

BENGALURU, KARNATAKA, INDIA, September 14, 2026 / EINPresswire.com/ -- [KPI Partners](#), a specialized cloud, data, and enterprise AI company, has been recognized as one of the "Top Organizations with Innovative HR Practices" at the 25th Edition of the Asia Pacific HRM Congress & Awards, held on September 10, 2026 at Taj MG Road, Bengaluru. The recognition is endorsed by CHRO Asia and certified by the World Federation of HR Professionals and the World HRD Congress.

The award celebrates organizations that treat people strategy as a driver of business performance - spanning talent development, tech-enabled practices, and a demonstrable culture of continuous innovation. For KPI Partners, that isn't a single initiative; it's a culture the company

codifies as [R.I.S.E.](#) - Respect & Responsibility, Integrity & Intellect, Strive to Grow, and Empathy & Equity, the principles that shape how its teams show up, hire, and grow together.

“

Recognition like this reflects who we are when no one is watching,”

*Rajesh Ramchandran, Chief  
Operating Officer, KPI  
Partners*

That culture is most visible in two functions. The Talent Acquisition team has built recruitment practices regarded as best-in-industry, identifying and hiring specialist talent across data, analytics, and enterprise AI. The Learning &

Development team turns that talent into a lasting advantage, delivering a structured and genuinely rewarding learning experience that keeps consultants ahead of a fast-moving technology landscape - a direct expression of the company's "Strive to Grow" ethos.

"Recognition like this reflects who we are when no one is watching," said Rajesh Ramachandran,

Chief Operating Officer, KPI Partners.  
"The way we hire, develop, and support our people is a direct expression of the values that shape how we work every day. We don't treat people strategy as a support function; it's how we deliver outcomes for clients. The credit belongs to the teams who live these values, not to any one of us."

The event convened HR and business leaders from across the Asia Pacific region for two days of dialogue on talent management, modern hiring practices, and workforce innovation.

Flory Morris, HR Director at KPI Partners, accepted the recognition on the company's behalf.

"It was a proud moment to accept this on behalf of everyone at KPI Partners," said Flory Morris, HR Director, KPI Partners. "What earns this isn't one program - it's how our teams turn our values into everyday practice, from best-in-industry recruitment to a genuinely rewarding learning experience. This award belongs to those teams and that culture."

The recognition adds to a strong run of external validation for KPI Partners, a Great Place to Work-certified organization for six consecutive years. The recognition reinforces a talent engine that the company is scaling with intent. As it grows its Forward Deployed Engineering ([FDE](#)) practice, embedding domain-native experts who own client outcomes end to end, the ability to attract top domain and technology talent and develop it fast becomes a direct competitive advantage. Best-in-industry recruitment and a strong learning culture are exactly what turn that ambition into delivery: the right experts, growing quickly, shipping measurable outcomes for customers.

#### About KPI Partners

KPI Partners is a global strategic partner helping enterprises redefine what's possible with Enterprise AI, Data, and Analytics. Founded in 2006, KPI Partners brings 20 years of experience and a team of 600+ consultants serving 300+ customers across Retail & CPG, Manufacturing, Financial Services, Life Sciences & Healthcare, High-Tech, Energy & Utilities, and Higher Education.

KPI Partners' capabilities span four core areas: Enterprise AI (Agentic AI, GenAI, and Data Science & ML), Data & BI Services (Data Engineering and Business Intelligence), Platform Modernization

(Data Platform Migration, BI Platform Migration, and Cloud FinOps & Governance), and Enterprise Software (Custom App Development and ERP Consulting).

Through its proprietary migration accelerators for BI modernization, data platform migration, pre-built analytics for enterprise ERP systems, and GenAI, KPI Partners helps enterprises modernize faster, smarter, and with less risk.

The company maintains strategic partnerships with Microsoft, Databricks, Snowflake, Anthropic, AWS, Google Cloud, and Oracle, and is recognized by CIO Times as “Fastest growing Analytics and AI companies driving business in 2026” and ISO 27001:2022 certified as well as Great Place to Work® certified for six consecutive years.
