NEW YORK, NY, UNITED STATES, September 14, 2026 / EINPresswire.com/ -- C9 Entertainment’s recently debuted boy group, NAZE, has released their first Japanese digital single, I LIKE IT. The release follows their TBS Drama Dream Stage appearance and self-titled Korean debut EP, NAZE. With their debut mini album, NAZE took home the ENA Rising Star award at the KPOP UP CHARTSHOW. This release marks the group’s return to Japan and their first music release in the country since their official debut.

I LIKE IT is built on a confident premise that the things you like, however small they look to anyone else, are what add up to who you are. The single consists of two tracks, opening with the title track, “I LIKE IT.” This title track is a nu-disco-flavored dance-pop song that layers tropical instrumentation over vintage guitar, groovy bass, and rhythmic drums. Its lyrics are utterly honest about being clumsy, caring what others think, trying to play it cool, and treating those things as the materials that make up who you are rather than something to correct. The second track, “HARMONY,” is a dance-pop track centered on funky guitar, with a rhythmic topline. The phrase “different notes, one harmony” anchors the main theme of the track and presents NAZE’s harmony as a group through a fresh band sound.
