# The Solar Guys Marks 25 Years as Florida's Solatube Daylighting Experts

*Family owned company founded in 2001 has grown into the number one Solatube dealer in the United States, serving five regions across Florida.*

The Solar Guys, since 2001

OCALA, FL, UNITED STATES, September 16, 2026 /EINPresswire.com/ -- The Solar Guys, Central Florida's Solatube Premier Dealer, is marking 25 years of helping homeowners bring natural daylight, better ventilation, and lower energy costs into their homes. Founded in Ocala in 2001 with a focus on Solatube tubular daylighting, the family owned company has grown into the number one Solatube dealer in the United States, with more than 85,000 satisfied customers and a 5.0 rating across more than 1,288 Google reviews.

After establishing itself in Ocala and The Villages, The Solar Guys expanded into the Orlando metro, launched an insulation division offering radiant barrier and blown in insulation, and, when Chris Teel joined the ownership, extended into the Jacksonville region and Northeast Florida. Today, the company serves five regions across the state, from the Nature Coast to the Atlantic, and has been recognized as a Top Solatube Dealer for 15 consecutive years.

> We are grateful to every Central Florida family who trusted us with their home, and to the crews who have helped us earn that trust one install at a time."
>
> *Marilyn Jamison, President of The Solar Guys*

Much of what has kept the company steady over 25 years is the standard it holds itself to. The Solar Guys is not a franchise. It is run by native Floridians who live and work in the communities they serve, and every job is handled by its own factory trained technicians rather than subcontractors. The company holds three active Florida contractor licenses: a Certified Building

Contractor license (CBC1260615), a Certified Roofing Contractor license (CCC1330841), and a Certified Solar Contractor license (CVC57042), the last of which many companies in the home improvement space do not carry. Because every Solatube installation penetrates the roof, that combination means the structural, roofing, and solar portions of a job are all covered under active, verified state licensing. The company also carries full workers compensation and liability insurance, and backs its work with a Workmanship Warranty.

"When we started in 2001, it was based on a belief that if you install the right product, the right way, and stand behind it, the work takes care of itself. Twenty five years and 85,000 homes later, that has not changed. We are grateful to every Central Florida family who trusted us with their home, and to the crews who have helped us earn that trust one install at a time." said Marilyn Jamison, President of The Solar Guys.

The Solar Guys holds an A plus rating with the Better Business Bureau, has earned the Angie's List Superior Service Award, and HomeAdvisor's top rated designation. It operates alongside sister companies The Roof Guys and The Guru Gutter Guys as part of a family of Florida home service brands.

About The Solar Guys
The Solar Guys is a family owned Solatube Premier Dealer based in Ocala, Florida, founded in 2001. The company specializes in Solatube tubular skylights, solar attic fans, ventilation, insulation, seamless gutters, and related home improvements, and holds Florida building, roofing, and solar contractor licenses. Recognized as the number one Solatube dealer in the United States, it serves five regions across the state and maintains a 5.0 customer rating. More information is available at thesolarguys.com.
