Viking Heating and Air Brings Honest, Guaranteed HVAC Service to South Jordan Utah Homeowners

Local company offers straightforward pricing and workmanship guarantees on furnace repair, AC installation, and heat pump service

SOUTH JORDAN, UT, UNITED STATES, September 16, 2026 /EINPresswire.com/ -- As temperatures shift into the fall season, South Jordan homeowners are once again searching for dependable help with heating and cooling. Terms like "HVAC contractor near me," "furnace repair South Jordan," and "AC installation South Jordan Utah" see a steady rise in local search activity every year. Viking Heating and Air, a locally owned and operated HVAC company, is meeting that demand with a simple promise: honest pricing, licensed expertise, and guaranteed results.

Serving homeowners across Salt Lake, Utah, Davis, Weber, and Wasatch Counties, Viking Heating and Air has built its reputation on transparency in an industry often criticized for inflated pricing and confusing quotes. The company's licensed, insured technicians specialize in furnace repair and replacement, air conditioner repair and installation, heat pump service, ductless mini split setup, seasonal tune ups, ductwork repair, thermostat installation, and indoor air quality solutions.

"Most people don't think about their HVAC system until something goes wrong," said Cody, a technician with Viking Heating and Air. "When that happens, they want two things: someone who can tell them exactly what's wrong, and a fair price to fix it."

That philosophy recently played out with a South Jordan area homeowner, a mother of four, who had been quoted nearly double the cost for a furnace and AC replacement by a larger, corporate provider. Viking Heating and Air evaluated her system, explained her options in plain terms, and installed high quality equipment with full manufacturer warranties, without the overhead costs that often inflate pricing at larger franchises.

"She wasn't getting a worse system for a lower price," Cody said. "She was getting the same equipment and the same warranty, just without paying for someone else's overhead."

As a locally owned business, Viking Heating and Air operates with lower overhead, allowing competitive pricing without cutting corners on parts, labor, or warranty coverage. The company's core services address the most common needs South Jordan residents search for online:

Furnace Repair and Replacement: Free estimates and installs backed by a 100% workmanship guarantee.

AC Repair and Installation: Fast diagnostics and honest recommendations for repair versus replacement, including central air and ductless mini split options.

Heat Pump Service: Installation and service for heat pump systems suited to Utah's seasonal climate swings.

Seasonal Maintenance: A tune up program designed to catch small issues before they become costly emergencies, including safety inspections for carbon monoxide risk in older furnace units.

Viking Heating and Air also emphasizes what sets it apart from national franchise competitors: no high pressure sales tactics, no inflated corporate pricing, and a workmanship guarantee on every job. The company works with all major HVAC brands, including Trane, Goodman, Carrier, Oxbox, Rheem, Daikin, and Mitsubishi, and can source specific equipment upon request.

For homeowners searching for "HVAC near me," "furnace replacement South Jordan," or "AC repair South Jordan Utah," the company positions itself as a local alternative that prioritizes long term customer relationships over one time transactions.

"We're not trying to be the biggest HVAC company in Utah," Cody said. "We're trying to be the one people trust enough to call every single time something comes up, and the one they recommend to their neighbors."

Viking Heating and Air currently serves residential and commercial customers throughout Salt Lake, Utah, Davis, Weber, and Wasatch Counties, with emergency repair availability for urgent heating and cooling issues.

For more information or to schedule a free estimate, homeowners can call or text 801-821-2816, email vikinghvacpro@gmail.com, or visit the company's website.
