

Ecowaste Solutions Acquires Wilson's Containers, Building the Operational Hub for Columbia County, Florida

40-Year, Family-Owned Container Company Becomes Ecowaste's Regional Base Ahead of October 1 Columbia County Municipal Launch

COPPELL, TX, UNITED STATES, September 16, 2026 / EINPresswire.com/ -- [Ecowaste Solutions](#), a regional waste and recycling company operating across ten states, announced today the acquisition of [Wilson's Containers](#), a family-owned industrial container and temporary dumpster service based in Lake City, Florida. This acquisition establishes Ecowaste's operational hub for Columbia County, Florida, where the company begins service October 1 as the county's commercial and residential waste collection provider. The Columbia contract adds more than 22,000 homes and 500 businesses to the Ecowaste portfolio.

Ecowaste Solutions expands across the South and Mid-South through strategic acquisitions

Wilson's Containers has run roll-off service out of Lake City for more than 40 years. The fleet transitions to Ecowaste Solutions as the operational hub for Columbia County, Florida.

Wilson's Containers has been locally owned and operated by lifelong residents of Columbia County for more than 40 years, delivering temporary containers for construction, renovation and cleanup projects across Lake City, Fort White, Branford, White Springs, Jasper, Macclenny, Glen St. Mary and Lake Butler. That kind of reach across North Florida, built one delivery at a time, is exactly what Ecowaste wanted standing behind its new Columbia County partnership.

The entire Wilson's Containers team is staying on with Ecowaste, keeping the same group behind the Columbia County hub. Building on the roots already planted here is central to how Ecowaste is approaching this market.

The Lake City facility is the anchor of that approach. It becomes the dispatch point for Ecowaste's daily Columbia County routes, the staging ground for equipment, and the local, physical presence that backs up the company's new municipal partnership. Rather than build that infrastructure from scratch, Ecowaste is putting its Columbia County operation on a foundation that already works.

"This new roll-off service offering in tandem with our new contract and robust facility is what makes our Columbia County partnership real," said Chief Executive Officer Dustin Reynolds. "It's a working operation with 40 years behind it, not a lot we're breaking ground on. Keeping the team and the infrastructure in place means we're growing what's already rooted here instead of starting fresh."

Reynolds added that the Lake City facility does more than add equipment to Ecowaste's fleet. "This becomes the growth hub in Columbia County going forward, our dispatch and customer engagement point, our staging ground, and the place our team operates out of every day. We're investing in a facility and a foundation that were already here and growing from there."

The acquisition comes ahead of Ecowaste's October 1 launch as the exclusive waste collection partner for Columbia County, and builds on the company's growing presence across the Southeast, including its April 2026 entry into Georgia through the [Adams Sanitation](#) acquisition. It's what the company's tagline, "The strength of a region. The heart of a neighbor," means in practice: show up in a community with the infrastructure and the people already in place to serve it well.

About Ecowaste Solutions

Ecowaste Solutions is a regional waste company operating across ten states throughout the South and Mid-South. Headquartered in Coppell, Texas, the company provides residential, commercial, roll-off, portable restroom, recycling and other environmental services to municipalities and private customers throughout the region. Ecowaste is building the South's waste collection, recycling and disposal through strategic growth and commitment to the communities it serves. For more information, visit www.ecowastesol.com.
