

Newman's Plumbing Expands Coverage Across Seven Hampton Roads Communities

The Virginia-based plumbing company now serves Portsmouth, Chesapeake, Suffolk, Norfolk, Virginia Beach, Hampton and Smithfield.

PORTSMOUTH, VA, UNITED STATES,
September 16, 2026 /

EINPresswire.com/ -- Newman's Plumbing, a licensed residential and light commercial plumbing company, has expanded its emergency and scheduled service coverage to seven Hampton Roads communities: Portsmouth, Chesapeake, Suffolk, Norfolk, Virginia Beach, Hampton, and Smithfield, Virginia, effective immediately. The expansion gives homeowners across the region faster access to [Hampton Roads emergency plumbing services](#), drain cleaning, water heater repair, leak detection, and sewer line services from a single licensed, insured provider.

The company has served Hampton Roads homeowners since its founding in 1994 and has steadily added service areas as demand grew for reliable, same-day emergency plumbing. Local search data shows rising demand for emergency plumbers across all seven communities, particularly for water heater repair and drain cleaning. Newman's Plumbing says the formal expansion reflects technician capacity added over the past year, allowing the company to guarantee the same response times in Smithfield and Suffolk that customers already expect in Norfolk and Chesapeake.

"We've quietly been covering more of Hampton Roads for a while, but we wanted the paperwork and the marketing to catch up to what our trucks are already doing," said John Newman, owner of Newman's Plumbing. "If you're in Smithfield or Suffolk and you've got a water heater making

noise at 11 p.m., I don't want you calling five plumbers before you find one who'll show up. We show up."

The expansion also adds a second dispatch route out of the company's Portsmouth base, cutting average drive time to Smithfield calls by roughly 15 minutes according to internal scheduling data. Newman's Plumbing says all seven service areas now receive the same 24/7 emergency dispatch and licensed-technician guarantee, with no surcharge for after-hours calls in any of the seven communities.

FAQ

Is Newman's Plumbing now taking new customers in Smithfield and Suffolk?

Yes. Newman's Plumbing is accepting new emergency and scheduled service calls in Smithfield and Suffolk immediately, alongside its existing coverage in Portsmouth, Chesapeake, Norfolk, Virginia Beach, and Hampton. Customers in all seven communities can book online or by phone and receive the same licensed, insured technicians and 24/7 emergency dispatch. There's no new-customer waiting list or separate onboarding process, booking works exactly the same regardless of which of the seven service areas a customer calls from.

“

If you're in Smithfield or Suffolk and you've got a water heater making noise at 11 p.m., I don't want you calling five plumbers before you find one who'll show up. We show up.”

Newman's Plumbing*

Does the expansion change pricing or response times?

No. Newman's Plumbing isn't changing its pricing or emergency response commitments as part of this

expansion. Response times in Smithfield and Suffolk should now match what customers already see in Norfolk and Chesapeake, typically same-day for routine requests, faster for active leaks or no-hot-water emergencies. Pricing stays the same flat-rate model used across all seven service areas.

What plumbing services are available in the newly confirmed areas?

All of Newman's Plumbing's core services are available in Portsmouth, Chesapeake, Suffolk, Norfolk, Virginia Beach, Hampton, and Smithfield, including emergency plumbing, drain cleaning and hydro-jetting, water heater installation and repair, leak detection, sewer line repair and

replacement, and grease trap service. Customers in any of the seven communities can request the same services, from the same licensed technicians, at the same rates.
