# Comfort Pros Heating & Cooling Announces New Ownership Under Local Entrepreneur Ben Sealey

*Asheville based HVAC company brings a renewed focus on honest, faith-driven service to Western North Carolina*

New Owner of Comfort Pros Heating and Cooling LLC

ASHEVILLE, NC, UNITED STATES, September 18, 2026 / EINPresswire.com/ -- Comfort Pros Heating & Cooling, an Asheville, North Carolina based heating and air conditioning company serving the Western North Carolina mountains, announced today that it is under new ownership.

The company is now owned and operated by Ben Sealey, an East Tennessee and Western North Carolina entrepreneur who says his faith shapes the way he does business. Under Sealey's leadership, Comfort Pros is focused on straightforward pricing, honest recommendations, and treating every customer's home the way the team would treat their own.

"Western North Carolina is a place built on trust and relationships, and that is exactly how I want to run this company," said Sealey. "We are not here to sell people equipment they do not need. We are here to fix what is broken, be upfront about what it costs, and earn the right to be the company families call the next time. My faith calls me to serve people with integrity, and that is the standard we hold ourselves to on every job."

Comfort Pros provides air conditioning repair and installation, heating repair and installation, heat pump service, HVAC maintenance plans, indoor air quality solutions, and system diagnostics for homeowners across Fletcher, Hendersonville, Mills River, Asheville, Arden, and

the surrounding Henderson and Buncombe County communities.

As part of the transition, the company has introduced a $125 diagnostic service call that is waived when repairs are completed, along with an annual maintenance plan at $199 per system that includes two seasonal tune-ups.

Comfort Pros Heating & Cooling is open Monday to Friday, 8:00am to 5:00pm. Homeowners can schedule service by calling (828) 393-0024 or visiting www.comfortprosnc.com.
