

Tech Rage IT Named 2026 MSP Titans of the Industry Finalist in Up and Coming MSP Category

Orlando IT services provider Tech Rage IT is one of 10 national finalists for Up and Coming MSP at the 2026 MSP Titans of the Industry Awards.

ORLANDO, FL, UNITED STATES, September 16, 2026 /EINPresswire.com/ -- Tech Rage IT, a

“

Being named an Up and Coming MSP finalist shows that the momentum we are building is being recognized beyond our own walls.”

Matt Rose, CEO and Co-Founder, Tech Rage IT

managed IT services and cybersecurity provider based in Orlando, Florida, has been named one of 10 national finalists in the Up and Coming MSP category of the 2026 MSP Titans of the Industry Awards.

The MSP Titans of the Industry Awards recognize managed service providers that demonstrate excellence, innovation and commitment to their clients and communities.

According to the award organizers, finalists are evaluated by a panel of industry experts on business impact, service

excellence, cybersecurity innovation, customer outcomes and leadership within the managed services industry.

"Tech Rage IT has been serving Central Florida for more than 11 years, but we are entering a new stage of growth," said Matt Rose, CEO and co-founder of Tech Rage IT. "Over the past year, we have invested heavily in our team, strengthened our service delivery, expanded our cybersecurity and AI security capabilities, and continued growing without losing sight of the client experience. Being named an Up and Coming MSP finalist shows that the momentum we are building is being recognized beyond our own walls."

Tech Rage IT supports small and midsize businesses in Central Florida and beyond, with Central Florida remaining the company's primary market. The company works with organizations in manufacturing, engineering, construction, accounting and other professional services. Its capabilities include [managed IT support](#), [cybersecurity and network support](#), AI security, Microsoft 365, cloud solutions, business continuity and strategic technology planning. The company continued its double-digit growth over the past year while making significant investments in its team, internal operations and the systems used to support its clients.

This marks the second consecutive year Tech Rage IT has been recognized by the MSP Titans of

the Industry Awards. In 2025, co-founder and former CEO Erica Martinez-Rose was selected as a finalist and went on to win the Minority Owned/Led category, recognizing her leadership and the company's impact as a minority-owned business.

"Erica's recognition last year honored the leadership and foundation she helped build at Tech Rage IT," Rose said. "Returning this year as a finalist in another category shows that the company continues to grow and evolve while building on that foundation."

The 2026 finalist selection also reflects the work of the broader Tech Rage IT team. "Our team has embraced change, strengthened how we work and continued raising the standard for service and communication," Rose said. "This recognition reflects the care they bring to supporting businesses every day."

Winners of the 2026 MSP Titans of the Industry Awards will be announced during the awards gala on December 9, 2026, at The Beverly Hilton in Beverly Hills, California.

Tech Rage IT has also been recognized as a CRN MSP 500 Pioneer 250 company for three consecutive years and was named a ChannelPro Top 20 MSP for 2026.
