Hoomzz Expands Verified Property Discovery Across Chandigarh, Mohali and the Tricity

Hoomzz helps tenants, buyers, students and professionals find homes, PGs and properties across Chandigarh, Mohali, Zirakpur, Kharar and Panchkula.

Hoomzz expands verified property discovery across Chandigarh, Mohali and the Tricity, covering rental homes, properties for sale, PGs, flatmates, builder projects and selected commercial properties.

MOHALI, PUNJAB, INDIA, September 22, 2026 /EINPresswire.com/ -- Hoomzz, a Tricity-focused property listing platform, is making it easier for people to find homes, rental properties, PGs and other real estate opportunities across Chandigarh, Mohali, Zirakpur, Kharar and Panchkula.

Built for people who want a more transparent way to search for property, Hoomzz connects property seekers with owners, builders and other clearly identified listing sources while displaying the verification status of listings. Eligible owner and partner rental listings can be identified with zero rental brokerage, helping users understand the brokerage terms before contacting a property.

> We built Hoomzz to make property search simpler and more transparent, for both Tricity residents and people planning to move here”

For people already living in the Chandigarh region, Hoomzz provides a centralized way to search for rental homes, properties for sale, PGs, flatmates and projects. For people planning to relocate to the Tricity from another city, the platform is designed to help them begin their property search before they arrive.

One Platform for Rent, Buy, PGs and More

Hoomzz brings multiple property-search categories together in one platform, including:

* Rental homes and apartments
* Properties for sale

* PGs and hostels
* Flatmate listings
* Builder projects
* Residential and selected commercial property opportunities

Users can search by city, sector, area or landmark, making it easier to narrow down properties according to location and requirements.

The platform currently covers key areas across Chandigarh, Mohali, Zirakpur, Kharar and Panchkula, with dedicated property discovery pages and local market information.

Verification Is Clearly Labelled

One of Hoomzz's central features is transparency around listing verification.

Depending on the property, Hoomzz may verify a listing through document review, a live or virtual walkthrough, or a physical property visit. Listings that have been checked display the applicable verification information, while listings that have not yet been checked are labelled as verification pending.

This approach allows property seekers to understand what has actually been verified rather than assuming that every online listing has gone through the same level of checking.

Hoomzz also encourages users to independently view a property and verify relevant details before paying any deposit or making a transaction.

Helping People Move to the Tricity

Chandigarh, Mohali, Zirakpur, Kharar and Panchkula attract students, working professionals, families, entrepreneurs and people relocating for education or employment.

For someone moving from another city, finding accommodation remotely can be difficult. Property information may be outdated, availability can change quickly, and users may not know which sectors or localities suit their budget and lifestyle.

Hoomzz aims to make that first step easier by combining property listings with location-focused information about the Tricity.

Its online resources include area guides, rental information, property-market content and city-specific search pages, helping users research neighbourhoods before deciding where they want to live.

Built for Students, Professionals and Families

Hoomzz's PG discovery section covers accommodation options for students and working professionals across Chandigarh, Mohali, Zirakpur and Kharar, with information such as meals, WiFi, AC and other amenities where provided.

For professionals, areas around Mohali's IT and commercial corridors can be searched alongside residential markets in Chandigarh and surrounding cities.

Families and long-term renters can explore residential properties across established Chandigarh sectors as well as newer residential developments in Mohali, Zirakpur, Kharar and Panchkula.

The platform also publishes local market guides to help users compare areas and understand differences in rental levels, connectivity and housing options.

A Local Platform With a Wider Audience

Although Hoomzz is focused on the Chandigarh Tricity region, its intended audience extends beyond people already living there.

Someone searching online for a rental flat in Mohali, a PG near Chandigarh University, a home in Chandigarh, a property in Zirakpur or accommodation in Panchkula can use Hoomzz to begin their search from anywhere.

The platform's focus on localities, sectors and neighbourhood-level property discovery is designed to help people make more informed decisions before visiting the region.

Mobile Apps Under Development

Hoomzz is also developing dedicated mobile applications for its growing property-search ecosystem.

The Hoomzz mobile experience is currently being developed for both Android and iOS, with the objective of making property discovery, enquiries, saved properties and other platform features more accessible from mobile devices.

The applications are currently under development and will be introduced through the respective app stores once ready.

Supporting Property Owners and PG Operators

Hoomzz is not designed only for people searching for property.

Property owners can list eligible properties through the platform, while PG operators can use

Hoomzz's property-management capabilities to organize rooms, beds and tenant information.

The platform also provides property owners with an alternative channel to reach people specifically searching for accommodation in the Chandigarh-Mohali region.

Hoomzz describes itself as a property listing platform rather than a real estate agent or broker. It does not negotiate transactions or charge brokerage itself, while individual listings clearly identify their source and applicable brokerage terms.

Building a More Transparent Tricity Property Ecosystem

As the Chandigarh-Mohali region continues to attract new residents, students, professionals, businesses and property investors, Hoomzz is focused on building a property discovery platform around local knowledge and clearer listing information.

Rather than attempting to cover hundreds of cities, Hoomzz is concentrating on the Tricity and surrounding markets, including Chandigarh, Mohali, Zirakpur, Kharar and Panchkula.

People looking for a home, rental property, PG, flatmate or property investment opportunity in the region can explore available listings and local information at Hoomzz.in

About Hoomzz

Hoomzz is a Tricity-focused property listing platform serving Chandigarh, Mohali, Zirakpur, Kharar and Panchkula. The platform helps users discover rental homes, properties for sale, PGs, flatmates and projects while providing transparent information about listing sources and verification status. Hoomzz is a property listing platform and is not a real estate agent or broker.
