

Anker Launches MagGo 2 Pro, the World's Fastest and Coolest Wireless Power Bank

New Anker Power Bank delivers true 25W wired-level wireless charging with SnapCool active cooling and 45W ultra-fast recharging

BELLEVUE, WA, UNITED STATES,
September 17, 2026 /

EINPresswire.com/ -- Anker today announced the launch of the [Anker MagGo 2 Pro](#), a magnetic wireless power bank designed to deliver fast, cool wireless charging with real-time visibility and enhanced battery care. As fast wireless charging has long traded speed for heat, the MagGo 2 Pro closes that gap. As of Sept. 2026, Anker MagGo 2 Pro is the world's first and only wireless power bank globally to earn the SGS Premium Performance Mark with an A+ Rating (Highest) for both ultra-fast charging and heat dissipation, delivering true 25W speed at wired-charger pace while staying cool to the touch. First unveiled at IFA 2026 in Berlin, where it earned five "Best of IFA" honors including recognition from Make Use Of, MacWorld, and BGR, the new MagGo Power Bank 2 Pro combines SnapCool active cooling, a smart display and 45W ultra-fast recharging in a compact form factor built for everyday carry.

Wired-Level Speed, Verified by SGS

The Anker MagGo 2 Pro delivers true 25W Max Qi2.2 magnetic wireless charging, fast enough to match a wired charger. In internal testing, it charged an iPhone 17 Pro to 25% in 10 minutes and

to 50% in 25 minutes¹, nearly matching the charging curve of a 20W wired charger². Premium low-resistance battery cells, active air cooling, and real-time temperature monitoring work together with the Qi2.2 protocol to deliver stable, high-speed charging.

SnapCool™ Technology: Fast Charging That Stays Cool to the Touch

Fast wireless charging generates heat, and heat forces a connected phone to reduce the power it accepts, slowing effective charging speed below the rated output. Anker built SnapCool to solve that problem directly. A smart fan-control algorithm, dual air channels, intelligent sensors, and a three-layer graphene heat-spreading system pull heat away continuously, keeping the back of the power bank below 96.8°F (36°C) throughout charging³, which is 21.6°F (12°C) below the international standard limit of 118.4°F (48°C). Competing magnetic power banks typically reach 113°F (45°C) or higher, a temperature that forces the connected phone to throttle.

45W Ultra-Fast Recharging, Up to 1.5× Faster

The power bank recharges itself to 80% in just 52 minutes⁴, up to 1.5× faster than the 30W input commonly offered by comparable competing products⁵. Premium low-resistance battery cells support the high-power input, while the active air-cooling system helps maintain consistent recharging performance.

Smart Display and Adjustable Stand

A built-in smart display shows real-time charging status, battery level, battery health, and temperature, or switch modes and toggle wireless charging on/off. The built-in stand adjusts smoothly from 0° to 80° for comfortable, hands-free viewing while charging, and folds completely flat to preserve the power bank's slim profile. It's tested to withstand 5,000 open-and-close cycles.

Smart Device Recognition

The Anker MagGo 2 Pro is capable of recognizing select phone brands, including the iPhone 18 and 17 series, as well as supported AirPods models, to deliver optimized charging performance⁶.

Additional Features

- Available in four colors: Phantom Gray, Starlight Silver, Polar Night Blue, and a newly unveiled Burgundy Red, a nod to Apple's iPhone 18 lineup.
- Premium battery cells, next-generation active cooling, and ActiveShield 5.0 work together to monitor temperature more than 10 million times per day, supporting safer, more stable charging.
- 10,000mAh capacity, weighing 7.76 oz (220 g).

Specifications

- Total Capacity: 10,000mAh
- USB-C Input: 5V□3A / 9V□3A / 15V□3A (45W Max)
- USB-C Output: 5V□3A / 9V□3A / 15V□3A / 20V□2.25A /

- Wireless Output: 5W / 7.5W / 15W / 25W Max
- Combined Wired and Wireless Output:
USB-C Output: 5V␣2A, Wireless Output: 5W (Max)
USB-C Output: 9V␣1.6A, Wireless Output: 7.5W (Max)
- Dimensions: 2.79 × 4.14 × 0.7 in / 70.9 × 105.15 × 17.8 mm
- Weight: 7.76 oz / 220 g

Pricing and Availability

The Anker MagGo 2 Pro is available in the U.S. starting today, September 17, 2026, and retails for \$109.99 at [anker.com](https://www.anker.com), Amazon.com and select retail partners in the United States.

Footnotes

1 Data is based on internal testing conducted with an iPhone 17 Pro. Actual results may vary depending on usage and settings.

2 Data is based on internal testing. Wired-Level speed means that the power bank charged an iPhone 17 Pro from 0% to 80% in nearly the same amount of time as a 20W wired charger.

3 Based on internal testing conducted at an ambient temperature of 77°F (25°C). The back of the power bank stayed below 96.8°F (36°C) during charging. Actual results may vary depending on usage and environmental conditions.

4 Data is based on internal testing of the power bank's recharging time. Actual results may vary depending on the charger, cable, ambient temperature, and other conditions.

5 Based on a comparison between the power bank's maximum 45W input and the 30W input commonly offered by comparable competing products.

6 Wireless charging: 25W Max with iPhone 17 / 16 series; 15W Max with iPhone 15 / 14 / 13 / 12 series. Also compatible with AirPods (with Wireless Charging Case) 2 / 3 / 4 / Pro / Pro 2 / Pro 3. Wired charging compatible with iPhone 17 / 16 / 15 series and more, iPad Pro / Air / mini series, Samsung Galaxy S / Z series, Google Pixel series, Nintendo Switch, Steam Deck, and more. Not compatible with iPhone 16e, Samsung, or Pixel devices for wireless charging. iPhone Air supports up to 20W; iPhone 16 Pro Max and Plus support up to 25W
