Zanda Earns 37 G2 Badges, Recognizing Leadership, Usability and Implementation in Healthcare Software

Twenty Leader badges and recognition for usability, ROI, implementation and results highlight Zanda's strengths across key healthcare software categories.

Zanda Logo

SAN FRANCISCO, CA, UNITED STATES, September 22, 2026 / EINPresswire.com/ -- Zanda, the global healthcare practice management platform relied on by more than 40,000 users, has earned 37 G2 badges in G2's Fall 2026 reports, including 20 Leader badges, across several of the healthcare software categories practitioners rely on every day.

> Earning 37 G2 badges is something we're incredibly proud of because the recognition draws on feedback about what practitioners experience when they use Zanda"
>

Among its 20 Leader recognitions, Zanda earned seven Momentum Leader badges across Patient Engagement, Clinical Documentation, Telemedicine, Mental Health, Medical Practice Management, Patient Scheduling and Physical Therapy.
Zanda was also recognized as a Leader across Grid® and Small-Business Grid® categories for Patient Engagement, Clinical Documentation, Telemedicine, Mental Health, Medical Practice Management and Patient Scheduling, along with a Regional Leader recognition for Medical Practice Management in EMEA.

Beyond leadership recognition, Zanda earned 17 performance badges highlighting areas that directly impact the experience of running a healthcare practice.

These included recognition for:
• Best Results across Clinical Documentation and Mental Health
• Best Estimated ROI for Clinical Documentation

• Most Implementable across Clinical Documentation and Mental Health
• Fastest Implementation across Clinical Documentation and Physical Therapy
• Highest User Adoption for Telemedicine
• Best Usability for Telemedicine
• Best Relationship for Patient Scheduling
• Best Meets Requirements for Physical Therapy

G2 Fall 2026 - Best Est. ROI

“Earning 37 G2 badges is something we’re incredibly proud of because the recognition draws on feedback about what practitioners experience when they use Zanda,” said Damien Adler, Zanda co-founder, psychologist and best-selling author.

“Our focus has always been on building software that makes running a healthcare practice easier. It needs to be simple to implement, easy for teams to use and deliver real value over time. Being recognized across leadership, usability, ROI, adoption and results tells us we’re continuing to deliver in the areas that matter most to practices.”

The latest results mark a significant increase in Zanda’s G2 recognition. In Fall 2025, Zanda earned 11 distinctions, including Best ROI, Fastest Implementation, Best Usability and Leader recognition in Medical Practice Management.
The expansion to 37 badges demonstrates broader recognition across both practice management and the individual tools and workflows healthcare professionals use to manage their day-to-day operations.

For Zanda, the breadth of the recognition is particularly meaningful. Highlighting the value of an all-in-one system, the platform received badges across the full practice experience, from implementation and usability to clinical documentation, scheduling, telehealth, patient engagement and overall results.

That reflects Zanda’s continued focus on giving healthcare professionals one platform to manage the administrative side of their practice while creating more time to focus on their clients and patients.

G2 rankings and badges are informed by feedback from software users and are designed to help buyers evaluate products based on areas including satisfaction, usability, implementation, relationships and results.

The latest recognition reinforces Zanda's continued growth as a global healthcare software platform and its commitment to building technology around the real needs of allied health and private practice professionals.
