LearningRx Chattanooga Continues Commitment to Inclusive Cognitive Care With Board Certified Cognitive Center™ Renewal

The center was initially certified in 2023 as the first BCCC in Tennessee.

CHATTANOOGA, TN, UNITED STATES, September 21, 2026 / EINPresswire.com/ -- LearningRx Chattanooga renews its Board Certified Cognitive Center™ (BCCC) designation from the International Board of Credentialing and Continuing Education Standards (IBCCES), continuing its commitment to providing inclusive cognitive care. The center was initially certified in 2023 as the first BCCC in Tennessee. As part of its renewal, the staff at LearningRx Chattanooga completed updated training in the areas of autism, ADHD, anxiety, and dyslexia.

> Being recognized as the first Board Certified Cognitive Center™ in Tennessee tells families they can trust that our team has gone above and beyond to earn that expertise."
>

"This certification means a lot to us because it validates the work our staff has put into deepening their understanding of how the brain learns," says Michelle Hecker Davis, owner/director of LearningRx Chattanooga. "We didn't get into this field to just tutor content—we got into it to help people build stronger cognitive skills so that learning becomes easier across every subject and every stage of life. Being recognized as the first Board Certified Cognitive Center™ in Tennessee tells families they can trust that our team has gone above and beyond to earn that expertise."

LearningRx provides one-on-one cognitive training to clients of all ages. Their "brain trainers" work individually with clients and use a variety of hands-on manipulatives to train cognitive skills, including working and long-term memory, visual and auditory processing, reasoning skills, processing speed, and attention.

"Continued training and education can make a meaningful difference in how organizations

understand and support the individuals they serve," says Myron Pincomb, CEO and board chairman of IBCCES. "LearningRx Chattanooga's renewal of its Board Certified Cognitive Center™ designation demonstrates its ongoing commitment to building staff knowledge and creating more inclusive experiences for the individuals and families they support."

For 25 years, IBCCES has been a leader in providing autism, sensory, and neurodiversity training and certification for professionals worldwide, including those in healthcare, education, public safety, travel, and corporate sectors. As the only credentialing board offering these programs, IBCCES provides training from subject matter experts and autistic self-advocates, along with long-term support, continuous learning, onsite reviews, and renewal requirements to ensure continued growth and lasting impact.

To further support inclusivity efforts, LearningRx Chattanooga is featured on the IBCCES Accessibility App, which is free to download. This app provides individuals with a variety of disabilities real-time guidance on certified destinations, sensory-inclusive spaces, and tailored recommendations. By connecting users to accessible locations worldwide, the app helps ensure seamless, enjoyable experiences for everyone.

IBCCES also provides access to resources such as AccessibilityCertified.com and AutismTravel.com, which are free online tools for families that list certified locations and professionals. Each organization listed on the sites has met IBCCES certification requirements.

About LearningRx
LearningRx is the world's largest one-on-one brain training company, with more than 300 locations worldwide and a mission to help people of all ages think faster, learn easier, and

perform better. Founded in 2001 by cognitive training pioneer Dr. Ken Gibson, LearningRx uses personalized, research-backed programs to strengthen the core cognitive skills the brain uses for thinking, reading, learning, and memory. LearningRx's programs have been validated by more than a dozen peer-reviewed studies published in medical, psychology, and education journals, conducted in partnership with the nonprofit Gibson Institute of Cognitive Research. For more information, visit www.LearningRx.com

About IBCCES
Delivering the global standard for training and certification in the fields of autism, neurodiversity, and accessibility – IBCCES provides a series of certification programs that empower professionals to be industry leaders and improve the outcomes for the individuals they serve. For 25 years, IBCCES has been a global leader, setting the industry standard in autism and cognitive differences training. IBCCES works in over 125 countries and provides training in 8 languages, and its programs have been recognized around the world as the leading benchmark in training and certification.

In addition to individual certification programs, IBCCES partners with cities, destinations, and organizations on initiatives like the Certified Autism Destination™ (CAD) and Autism Certified City™ (ACC), ensuring autistic and sensory-sensitive residents and visitors feel welcomed and safe. Destinations that achieve the CAD designation have completed a specialized program that ensures a multitude of recreation, hospitality, and entertainment organizations have completed an autism and sensory-sensitivity training, certification, and IBCCES facilities review process. The ACC designation expands on that program and includes IBCCES training and certification for the public safety, education, healthcare, and workplace sectors.

IBCCES also created the Accessibility App, AutismTravel.com, and AccessibilityCertified.com – free resources for individuals with a variety of neurodiversities and disabilities, listing certified locations and connecting individuals to other resources and each other.
