New Book 'For a More Perfect Union' Says Both Parties Have Failed America, And Offers a Fix

Retired engineer and third-party leader John B. Bloom lays out a plan to cut the national debt, reform elections, and hold politicians accountable.

SPOTSYLVANIA COUNTY, VA, UNITED STATES, September 17, 2026 /EINPresswire.com/ -- As an Air Force officer makes headlines for publicly calling for President Trump's impeachment, and Congress fights over paying for the ongoing war with Iran, one Virginia man says he saw this coming and wrote a book about it. That book is "For a More Perfect Union," by author John B. Bloom.

John B. Bloom, 63, spent over 30 years working inside the Republican, Democratic, and independent parties in New York and Virginia. Today he leads the Constitution Party of Virginia. "For a More Perfect Union" says both major political parties have stopped following the Constitution, and that it's time for regular Americans to fix that.

The timing of "For a More Perfect Union" couldn't be sharper. Right now, Congress is stuck arguing over defense spending because the war with Iran has used up huge amounts of missiles and weapons. The book tackles this head-on, saying America's 39 trillion-dollar national debt, made worse by wars like this one, is stealing from future generations. It lays out, step by step, why Bloom believes President Trump should be impeached, using only public facts: court cases, convictions, and actions Bloom says broke the law.

"For a More Perfect Union" does not let Democrats off easy either. Using his own letters that have been published in newspapers for years, Bloom shares stories of unfair deals and rigged elections he says he witnessed inside political parties from both sides.

The book is not just complaints. It offers real solutions in plain language. Bloom wants to let people rank their candidates when voting instead of picking just one. He wants to replace the income tax with a national sales tax. He proposes slowly raising the Social Security retirement age over ten years so people can plan ahead. He calls for limits on lawsuit payouts to help bring down healthcare costs. He also wants the federal government to shrink slowly, through retirements rather than sudden layoffs.

Bloom shares his own hard experience with unfair treatment while working as a federal

employee, and explains, in his own words, why he is against abortion, while also pushing for more support and funding for adoption.

"I was denied my day in court," Bloom writes in "For a More Perfect Union." "This book is my last resort to get real justice, a more perfect union, where every American is treated fairly."

Bloom holds a bachelor's degree in nuclear engineering from Penn State and a master's degree in environmental technology from the New York Institute of Technology. He brings that same problem-solving mindset to this book, written in plain, honest, no-nonsense language anyone can follow.

"For a More Perfect Union" is published by Book Publishing Group LLC and will be available in hardcover and paperback wherever books are sold.

About the Author

John B. Bloom is a retired federal engineer and longtime political activist based in Spotsylvania County, Virginia. He currently serves as Chairman of the Constitution Party of Virginia and has run for public office on the Republican, Libertarian, and Conservative Party lines. Over the past two decades, he has had more than 20 letters to the editor published in newspapers across Virginia and other states, focused on offering solutions to America's political and economic problems. Bloom holds a bachelor's degree in nuclear engineering from Penn State University and a master's degree in environmental technology from the New York Institute of Technology. "For a More Perfect Union" is his first book.

About the Editor

"For a More Perfect Union" was edited with contributions from Meghan Synan, Bloom's business partner and political administrative assistant. Synan is the author of "Rain Dance," available on Amazon and through the Library of Virginia. More about her work is available at linktr.ee/MeghanSynan.
