

2,300 People Across 54 Countries Unite in a Global Movement for Healing and Peace

Healing Millions unites 2,300 people across 54 countries for a free global healing summit, October 5-7, featuring 35 speakers focused on healing and peace.

VIENNA, VIENNA, AUSTRIA, September 21, 2026 /EINPresswire.com/ -- This October, [Healing Millions®](#) will bring people together for the free online [New Era of Global Healing Summit](#), from October 5-7, 2026. Thirty-five international speakers will share conversations and healing experiences focused on generational wounds, family relationships and hope for the next generation.

The New Era of Global Healing Summit October 2026

The speakers include clinical psychologists, therapists, spiritual healers, professors and a war-crimes prosecutor, many with decades of experience in their fields. Their professional, cultural and spiritual perspectives will explore how inherited pain can shape the way we live, love and relate to one another.

For Maglic, founder of Healing Millions®, this work is deeply personal. She spent part of her childhood sheltering in a basement during the war in Bosnia and Herzegovina. Decades later, that experience became part of her mission to bring people together and help them heal the wounds that conflict, fear and family history can leave behind.

"If we want a more peaceful and loving world, it begins with us," Maglic said. "Peace begins when we choose to heal our own pain and the generational wounds our families carry. When we do that, we break cycles that have limited us for far too long. We stop carrying pain forward and give anger and fear less power to turn people against one another. This creates more space for understanding, connection and peace, and changes how we love, raise our children and teach the next generation."

The three-day summit will focus on three central themes:

October 5: Healing Generational Wounds

October 6: Healing the Family

October 7: Giving Hope and Dreams Back to Children

Participants will have access to conversations, practical sessions and healing experiences. Topics include inherited trauma, grief, emotional healing, family patterns and supporting children to feel safer and more hopeful about their future.

The summit is free and fully online, making it accessible to people regardless of location or financial circumstances. It is for people from all walks of life who believe that each of us can contribute to greater peace in the world.

“Healing Millions is a global movement of people who believe personal healing can have a wider impact,” Maglic said. “When one person breaks a painful pattern, it can change a family. When families begin to heal, that change can reach communities and people they may never meet.”

This will be the second New Era of Global Healing Summit. The first brought together approximately 1,400 attendees from 47 countries. Since then, the Healing Millions community has grown to 2,300 people across 54 countries.

Through the summit, Healing Millions aims to bring people into a global conversation that goes beyond individual well-being. It is built on the belief that healing what has been passed down through families can help people live with more understanding, connection and responsibility for the world they help create.

The New Era of Global Healing Summit takes place online from October 5–7, 2026. Attendance is free.
