Elevated Waste Solutions Launches New Enclosed Dumpster Option for Park City, Kamas, Jordanelle and Heber

PARK CITY, UT, UNITED STATES, September 18, 2026 / EINPresswire.com/ -- Elevated Waste Solutions has launched Elevated Enclosed, a new 20 yard enclosed roll off dumpster designed for builders, contractors, commercial properties, and businesses that need a cleaner, more secure way to manage waste.

The new Elevated Enclosed dumpster features a retractable metal roof that allows the container to be easily covered between uses. It is an ideal option for construction projects where covered dumpsters are required, as well as commercial and retail properties that want to reduce illegal dumping, limit unauthorized access, and keep dumpster contents secure.

Elevated Waste Solutions is initially focusing the new enclosed dumpster service in Park City, Kamas, Jordanelle, and Heber, where builders frequently work on high end residential and commercial projects with strict jobsite appearance, security, and waste containment requirements.

“Higher Standards are what we’ve built our company around,” said Eric Bengel, owner of Elevated Waste Solutions. “We believe the dumpster sitting on your jobsite represents both our company and yours. That’s why we take pride in providing clean, professional equipment, dependable service, and a better overall experience for our customers.”

The Elevated Enclosed dumpster provides the convenience of a traditional roll off dumpster with the added benefit of a solid retractable roof. When closed, the container helps keep debris contained and limits access to the dumpster, making it a practical option for custom home

construction, commercial properties, retail locations, warehouses, remodeling projects, and other sites where security and appearance are a priority.

The enclosed design can also help businesses address one of the most common problems with dumpsters located in accessible areas: unauthorized dumping. Keeping the container covered and secured can discourage people from adding their own trash or removing materials from the dumpster after hours.

In addition to Elevated Enclosed, Elevated Waste Solutions offers a variety of roll off dumpster options for different types of projects, including concrete and dirt dumpsters, 15 yard dumpsters, 20 yard dumpsters, and 30 yard dumpsters. These options are used for roofing, remodeling, construction debris, property cleanouts, landscaping projects, and larger residential and commercial jobs.

Elevated Waste Solutions is a locally owned and operated Utah dumpster rental company serving Utah County, Salt Lake County, Park City, Kamas, Heber, and surrounding communities. The company works with homeowners, contractors, builders, roofers, remodelers, property managers, and commercial customers who need dependable roll off dumpster service.

Clean equipment and responsive service are a major part of the Elevated Waste Solutions experience. The company takes pride in delivering clean, professional dumpsters, providing clear communication throughout the rental process, and offering same day and next day delivery based on location and availability. Elevated Waste Solutions also provides 24/7 emergency service for customers who need fast dumpster service when unexpected situations arise.

Elevated Waste Solutions also takes additional steps to help protect customers' properties. Driveway protection options are available for dumpsters placed on concrete or pavers, and the company photographs dumpsters and surrounding areas during service to document placement and site conditions.

With multiple trucks and a growing inventory of dumpsters, Elevated Waste Solutions is equipped to support everything from individual residential projects to contractors requiring multiple dumpsters and fast swap outs.

The addition of Elevated Enclosed expands those capabilities for customers who need something beyond a traditional open top roll off dumpster.

Whether the goal is keeping a construction site covered, maintaining a professional appearance at a commercial property, securing dumpster contents, or discouraging illegal dumping, Elevated Enclosed gives contractors and property managers another option for keeping their waste contained and their sites looking professional.

Customers can learn more about Elevated Enclosed dumpster rentals in Park City, Kamas, Jordanelle, and Heber, check availability, or get help selecting the right dumpster for their project by visiting www.elevatedwastesolutions.com or calling 801-372-0039.

About Elevated Waste Solutions
Elevated Waste Solutions is a locally owned and operated Utah roll off dumpster rental company based in Saratoga Springs. The company provides clean, professional dumpster rentals for contractors, homeowners, builders, roofers, remodelers, property managers, and commercial customers throughout Utah County, Salt Lake County, Park City, Kamas, Heber, and surrounding communities.

With concrete and dirt dumpsters along with 15 yard, 20 yard, 30 yard, and Elevated Enclosed dumpster options, Elevated Waste Solutions provides solutions for projects ranging from residential cleanouts and remodeling to roofing, new construction, landscaping, and commercial applications.

Elevated Waste Solutions is a member of Blue Collar Connect and participates in the Salt Lake Home Builders Association and Utah Valley Home Builders Association, helping the company stay connected with contractors, builders, tradespeople, and other businesses throughout the communities it serves.

Elevated Waste Solutions focuses on dependable service, responsive communication, clean equipment, and Higher Standards throughout the dumpster rental experience.
