Loveland-Based Crystal Landscape Supplies Broadens Mulch & Bark Offerings

LOVELAND, CO, UNITED STATES, September 18, 2026 /EINPresswire.com/ -- Crystal Landscape Supplies, a landscape material supply company serving Loveland, Fort Collins, and surrounding areas across Colorado, Wyoming, and Nebraska, has expanded its mulch and bark product line with the addition of several new varieties, the company announced.

The expanded lineup includes Chocolate Mulch, Natural Mulch, Playground Mulch, Shredded Cedar, Shredded Redwood, and Western Red Cedar, adding to the company's existing selection of bulk mulch and bark products. The additions bring the company's mulch offerings to 14 distinct types, sold in bulk by the cubic yard rather than by the bag, a format the company says is intended to serve both individual homeowners and landscaping contractors working on larger-scale projects.

According to the company, the new varieties were added in response to demand for a wider range of colors, textures, and applications, including options suited for garden beds, pathways, tree rings, erosion control, and playground surfacing.

"Adding these mulch varieties allows us to better match customers with the right product for their specific project, whether that's a small residential garden bed or a large commercial installation," said a spokesperson at Crystal Landscape Supplies.

Crystal Landscape Supplies has operated as a locally owned and operated landscape supply store in Loveland, Colorado for more than two decades. In addition to mulch and bark, the company's inventory includes decorative rock, boulders, flagstone, retaining wall block, soils, sand and gravel, pavers, and other landscape supply materials. The company also offers landscape supply delivery services across Colorado, Wyoming, and Nebraska, along with bobcat delivery, boring and drilling services, and dirt and yard waste recycling.

Customers can view the full mulch and bark product line, along with delivery information for their area, at www.crystallandscapesupplies.com/mulch-bark.
