Gachwala Expands Mushroom Cultivation Collection with Mushroom Spawn and Growing Kits

Gachwala expands its mushroom cultivation collection with mushroom spawn, growing kits, grow bags, compost, and related cultivation supplies.

Duckweed, (Spirodela Polyrhiza) Live Floating Plants for Pond / Aquarium

BARASAT, WEST BENGAL, INDIA, September 22, 2026 / EINPresswire.com/ -- Gachwala has expanded its mushroom cultivation collection with mushroom spawn, mushroom growing kits, grow bags, compost, and related cultivation supplies. The products are available through the company's official online platform.

The expanded collection combines individual growing inputs and ready-format growing products for customers seeking mushroom growing supplies.

Mushroom Spawn Gathering

One of the materials used to grow mushrooms is mushroom spawn. Gachwala has spawn products for a variety of mushroom varieties and individual product listings provide details about their respective specifications and use.

The collection features:

Spawn of oyster mushroom
Milky mushroom starter
Mushroom spawn Button

Each product is sold individually in its respective pack size and product configuration.

Mushroom cultivation kits

Gachwala also sells mushroom grow kits that combine select cultivation materials into one product format.

The components depend on the kit, but can include mushroom spawn, growing bags, substrate-related materials and a number of other growing accessories.

It's all listed in the product listing so customers know exactly what's inside, the specifications and how to use it.

Gachwala Milky Mushroom Spawn prepared for cultivating Milky Mushrooms (Calocybe indica) in home and commercial mushroom growing setups.

Products for Oyster Mushroom Growing

Among the products offered are those for oyster mushroom cultivation: oyster mushroom spawn, mushroom growing products.

Gachwala also has a ready to harvest oyster mushroom kit as a separate product format. The ready-to-harvest kit contains a prepared growing bag and spray bottle for customers to keep the fruits moist during the fruiting stage according to product instructions.

This is a ready-to-harvest format, unlike traditional growing kits that need to be prepared and spawned before growing.

Cultivation of Milky Mushroom Products

Gachwala's mushroom collection includes milky mushroom spawn for cultivation applications.

Besides, Gachwala has learning programs available with milky mushroom farming training and products as well. The training is in addition to the physical cultivation products.

Products for Growing Button Mushrooms

There's also button mushroom spawn and other growing supplies in the collection.

Gachwala also provides button mushroom cultivation training through online and offline learning options. This training provides educational knowledge on the practices of button mushroom cultivation.

Gachwala Kulekhara Live Plant (Hygrophila Auriculata) Kokilaksha, Gokulakanta, Go-kanta, Gokanta, Kokilaksha, Neeramulli (Nirmulli), Swampweeds Ayurvedic Medicinal Plant

Supporting Growth Supplies

The extended collection also contains further materials used in activities for mushroom cultivation, such as:

PP plant pots
Mushroom manure
Materials for preparing the substrate
Chuna powder (lime)
Mushroom growing accessories

Availability and specifications of the product are provided on individual product pages on the web.

Training on Mushroom Cultivation

Gachwala also offers training in mushroom cultivation apart from its physical products for cultivation in online and offline learning formats.

It provides training on :

Training for Oyster Mushroom Cultivation
Training on milky mushroom cultivation
Training on cultivation of button mushroom

The training programs are designed to provide structured information on cultivation practices and are separate from the physical product listings of the company.

Mushroom Cultivation Consultant

Gachwala also provides consultancy services to people who want to set up mushroom farms and want guidance on cultivation and farm setup.

The consultancy could cover topics such as cultivation planning, considerations for setting up a

farm, material needs, Environmental management and general cultivation workflow.

Consultancy is provided as a guidance service and does not guaranty production, yield, profitability or commercial results.

Availability and Distribution Online

You can purchase Gachwala's mushroom growing products from their official website.

On the company's online platform, customers can find mushroom spawn, mushroom growing kits, grow bags, mushroom compost, ready-to-harvest products and other cultivation supplies.

Components included in the Gachwala DIY paw printing kit, including air-dry clay, paint colors, brush, coaster, and display stand for paw impression activities.

Fish-shaped cast iron tool supplied for cooking and boiling applications as part of standard kitchen preparation practices.

Product Details

Each mushroom growing product is listed along with its specifications and suggested use.

Contents of a mushroom growing kit can vary by product. Please check the corresponding product listing for details about included materials, pack size and usage instructions.

Growing Conditions

Different types of mushrooms may require different methods of growing, growing, materials and treatment.

So Gachwala's range is about individual products for individual growing needs, rather than all mushroom products being interchangeable.

The customer can select products according to the mushroom variety and method of cultivation suitable for their intended application.

There are no guaranties for cultivation or financial returns.

The mushroom cultivation products and services are presented as supplies for cultivation, educational resources and guidance services.

Gachwala does not represent these products or services as a guaranty of:

Specific yield of mushrooms
Fixed growing schedules
Assured Cultivation Success
Income guaranty
Profitability guarantyd
Box office success

Actual growing outcomes can differ depending on environmental conditions, materials, handling, hygiene, growing methods and other operational factors.

Gachwala's Mushroom Collection Expansion

The expanded collection combines mushroom spawn, growing kits, cultivation materials, training and consultancy under Gachwala's broader mushroom cultivation category.

The set of individual cultivation inputs and grouped growing products provides a number of product formats for customer use, with individual descriptions for each product.

Final Thoughts

Gachwala has added mushroom spawn, growing kits, grow bags, mushroom compost and related cultivation supplies to its mushroom cultivation collection.

The collection consists of products related to oyster, milky and button mushroom cultivation, mushroom cultivation training and farming consultancy services.

Gachwala, products and service information is available on the official online platform, customers can check individual offerings based on their cultivation or learning needs.
