HSI Named a Leader in Latest Verdantix EHS Software Green Quadrant Report for 2026

Independent research firm Verdantix highlights HSI's comprehensive EHS software platform with embedded AI & training to support Enterprise and Mid-Market firms

FRISCO, TX, UNITED STATES, September 21, 2026 /EINPresswire.com/ -- HSI, a leading provider of fully configurable AI-powered safety, compliance, and workforce development software solutions, today announced it has been named a Leader in the Verdantix 2026 "Green Quadrant for EHS Software" report. The report highlights HSI's highly-configurable software platform for EHS professionals with particular recognition in three areas: Training, embedded AI and Chemical Management. Verdantix specifically recognizes HSI's training capabilities, naming HSI as achieving "the highest score across all vendors in training." Verdantix goes on to note that HSI's AI is unique among EHS Software vendors "to identify training gaps, recommend learning content and generate tailored learning paths based on employee history, role and operational data." Verdantix also highlights HSI's depth of chemical management capabilities offered to customers with a proprietary library of more than 3.5 million SDSs.

The latest Green Quadrant showcases HSI's commitment to improving customer's workplaces through a strong investment in product enhancement. "HSI is committed to building and delivering the best EHSQ software platform for our customers to manage their EHSQ and operational risk needs," said Jose Arcilla, CEO of HSI. "With a leading AI-powered platform, the largest Safety Training library available for EHS professionals, and a strong Chemical Management solution, we're thrilled to have our platform recognized as a Leader in our Industry," said Arcilla.

Verdantix analyzed 24 of the most prominent EHS software vendors. "Organizations seeking to consolidate safety reporting and workforce training within a single platform should consider HSI for its training expertise, broad customer base and continued investment in platform expansion," wrote Brittany Sayers, Senior Analyst, EHS, at Verdantix. "Buyers in the mid-market

to lower enterprise space will find the platforms intuitive UI, support for 22 out-of-the-box languages and AI capabilities appealing."

The latest GQ report continues HSI's leading position among EHSQ software vendors. To read the latest report, visit www.verdantix.com
