PURE Medical Spa Opens Fifth Chicagoland Location in Naperville

Now open in Naperville, PURE Medical Spa brings physician-led aesthetics, skin rejuvenation and wellness services to Chicago's western suburbs

NAPERVILLE, IL, UNITED STATES, September 21, 2026 /EINPresswire.com/ -- PURE Medical Spa has opened its fifth Chicagoland location at 1620 Pebblewood Trail, Unit 124, Naperville, IL 60563, extending the established Chicago-area medical aesthetics and wellness brand into the western suburbs.

The Naperville med spa opened August 15 and now welcomes both new and existing PURE clients from Naperville, Aurora, Lisle, Wheaton, Warrenville, Bolingbrook, Plainfield, Woodridge and surrounding communities.

The expansion brings PURE's physician-led model closer to western suburban clients who previously traveled to Chicago or Oakbrook Terrace for treatment. With convenient access from the I-88 and Route 59 corridors and free on-site parking, the Naperville location provides medical aesthetic and wellness care without the drive downtown.

"Naperville was a natural next step for PURE because we were already seeing growing interest from clients throughout the western suburbs," said Dr. Danuta T. Kowalski, M.D., Founder and Medical Director of PURE Medical Spa. "Our philosophy is simple: treatments should help people look refreshed, healthy and confident, not redone. We focus on careful assessment, conservative treatment planning and results that remain natural to the individual."

A Full-Service Med Spa in Naperville

The Naperville location provides a broad menu of medical aesthetic, skin, body and wellness services under physician oversight.

Injectables: BOTOX® Cosmetic, Dysport®, Jeuveau®, Xeomin®, dermal fillers, lip enhancement, Sculptra® and Radiesse®. Clients looking for Botox in Naperville receive treatment plans built around facial anatomy, natural movement and individual goals, with an emphasis on balanced, natural-looking results.

Skin Rejuvenation: HydraFacial®, IPL photofacial, microneedling, regenerative microneedling, chemical peels and laser resurfacing, focused on skin tone, texture, pigmentation, hydration and overall skin health.

Laser Hair Removal: A longer-term approach to reducing unwanted hair on the face and body, with treatment plans based on individual needs and treatment areas.

Body Contouring: Non-surgical body treatments, including CoolSculpting® Elite, for clients seeking targeted contouring options.

Hair Restoration: Medically guided hair restoration services that evaluate the underlying causes of hair loss before developing an appropriate treatment plan.

Physician-Guided Weight Loss: Medical weight-management consultations that help eligible patients explore physician-guided approaches based on their health history, goals and medical evaluation.

Peptide and Wellness Services: Peptide programs and metabolic and functional wellness services, recommended on the basis of individual consultation and medical appropriateness.

IV Therapy: IV hydration and wellness treatments supporting hydration, recovery and general wellness goals.

Grand Opening Savings for Naperville Clients

To mark the opening, PURE Medical Spa Naperville is welcoming clients with Grand Opening pricing on its most requested treatments:

Botox: starting at $7.99 per unit
Dysport: $2.99 per unit on the first 10 units
Dermal fillers: $399 per syringe
HydraFacial: $129 per treatment
50% Savings on select skin, laser and body services for new Naperville clients

All Grand Opening per-unit and per-treatment pricing is available exclusively at the Naperville location through October 30, 2026. Per-unit and per-treatment pricing is shown so clients can compare transparently; consultation with a PURE provider determines the appropriate treatment plan and number of units or sessions. Full terms and eligibility are available on the Naperville location page below.

"Opening in Naperville is about bringing the same standards our Chicago-area clients already know to a community that has been asking for access closer to home," Dr. Kowalski said.

"Whether someone is visiting us for the first time or continuing treatment with PURE, our goal is for that person to feel heard, properly evaluated and never pressured into doing more than is appropriate for them."

A "Refreshed, Not Redone" Approach

PURE Medical Spa distinguishes itself through physician oversight, experienced providers, and an aesthetic philosophy centered on "refreshed, not redone" results.

Rather than treating every client with a one-size-fits-all procedure, PURE providers assess facial anatomy, skin condition, treatment history, and long-term goals before recommending care. This philosophy extends from injectables and skin rejuvenation to body treatments and wellness services, allowing clients to build treatment plans around their own priorities rather than trends alone.

Complimentary consultations are available for clients who want to discuss treatment options before scheduling a procedure.
