Flowerbulb.eu Encourages Gardeners to Plant Once and Enjoy Season After Season

Perennial Flower Bulbs Offer a Long-Term Option for Gardeners Seeking Simplicity

PHILADELPHIA, PA, UNITED STATES, September 21, 2026 / EINPresswire.com/ -- Gardeners looking to simplify seasonal planting are increasingly turning to perennial plants, including flower bulbs that can return year after year. The “plant once and enjoy season after season” approach offers an alternative to annual planting while providing recurring color in the landscape.

Perennial bulbs can be planted once and, under suitable growing conditions, return for multiple growing seasons. Unlike annual flowers that typically need to be replaced each year, many perennial bulbs multiply or naturalize over time, allowing gardeners to develop established displays with less annual replanting.

The approach may also appeal to gardeners who are new to growing flowers. Bulbs provide a straightforward way to add seasonal color, with many varieties requiring relatively little maintenance once established. Spring-flowering bulbs such as daffodils, crocuses and alliums can create recurring displays when planted in locations suited to their growing requirements.

For gardeners focused on making thoughtful purchases, perennial bulbs can also provide value over multiple seasons. A single planting can continue producing flowers for years, although performance varies by bulb type, climate, soil conditions and maintenance.

Perennial bulbs can contribute to landscapes designed to support pollinators and other garden wildlife. Selecting bulbs that provide nectar and pollen at different times of the year can help extend the availability of floral resources in the garden.

“Plant once and enjoy season after season” reflects a growing interest in gardening approaches that reduce repetitive work while maintaining an attractive landscape. Perennial bulbs provide one option for gardeners seeking seasonal color without starting from scratch each year.

More information about flower bulbs and perennial varieties is available at Flowerbulb.eu.

Royal Anthos is a Dutch trade organization that represents the trade companies in flower bulbs and nursery stock products worldwide. For more information, visit www.anthos.org.

Flowerbulb.eu is a promotional agency for the flower bulb sector. Their goal is to educate and inspire new and experienced gardeners. They do not sell flower bulbs; they encourage consumers to visit their local retailer. High-resolution images are available royalty-free when citing FlowerBulbs.com as the source. Visit www.flowerbulb.eu for more information.

Garden Media Group ignites buzz for clients, offers innovative public relations campaigns, and secures top media placements and partnerships. The boutique PR and marketing firm is known

as the best in the home and garden, horticulture, outdoor living, and lawn and landscape industries. Its annual Garden Trends Report is among the most published trade and consumer news garden studies. Visit www.gardenmediagroup.com for more information.
