

BurraPay and Walker Digital Announce Integration of Compliant Crypto-Funded Casino Wagers with Perfect Pay™

Collaboration Will Connect BurraPay's Direct-to-Device Cryptocurrency Payments Platform to WDTs's Intelligent Table Games Ecosystem

LAS VEGAS, NV, UNITED STATES,
September 22, 2026 /

EINPresswire.com/ -- [BurraPay](#), the leading provider of cryptocurrency payment solutions for the regulated casino gaming industry, has announced an agreement with [Walker Digital Table Systems](#) (WDTs) to integrate its cryptocurrency payment technology with the WDTs gaming table platform. This integration will make WDTs the first table games management platform to offer the compliant crypto payments solution to its casino customers.

BURRAPAY™
Compliant Crypto Solutions

BurraPay is the leading provider of cryptocurrency payment solutions for the regulated casino gaming industry.

WDTs is the global leader of intelligent table games technology, delivering innovative solutions that transform how casinos manage table games, players, chip, and cage operations. Through this integration, WDTs will add the BurraPay Direct-to-Device (D2D) crypto payment technology to its Perfect Pay™ table platform. WDTs technology is currently deployed on more than 5,000 gaming tables across Asia, Australia, and North America.

“

We are excited to be the first table games system to integrate with such a transformative solution in casino payments.”

Stephen Moore, CEO of WDTs

“We are excited to be the first table games system to integrate with such a transformative solution in casino

payments,” said Stephen Moore, CEO of WDTs. “Walker Digital Table Systems has always been committed to leading the industry with innovative solutions for the management of the table

games ecosystem and BurraPay's platform enabling the compliant use of cryptocurrency to fund the customers wagering account is the perfect complement to our suite of offerings."

BurraPay's patented crypto payment platform was specifically engineered to meet the rigorous compliance standards demanded by U.S. gaming regulators - a barrier that has until now kept cryptocurrency entirely out of the licensed casino ecosystem.

WALKER DIGITAL TABLE SYSTEMS

WDTS is the global leader of intelligent table games technology, delivering innovative solutions that transform how casinos manage table games, players, chip, and cage operations.

BurraPay's Direct-to-Device technology lets players easily fund their gaming device - slot machine, gaming terminal, or connected gaming table - directly with cryptocurrency almost immediately, eliminating trips to the cage or cashier, and removing lengthy wait times normally associated with cryptocurrency payments. With BurraPay's technology, all required AML compliance checks occur swiftly and seamlessly behind the scenes.

The company also offers both a fully-embedded platform that integrates directly with casino player account management systems in land-based, iGaming, and online sportsbook environments; and an over-the-counter solution that has been developed for rapid deployment in land-based casino environments.

All BurraPay solutions utilize the Company's portfolio of patented technologies covering the secure, AML-compliant use of cryptocurrency - including Bitcoin, Ethereum and Litecoin - in casino environments, as well as blockchain monitoring tools capable of analytics to ensure that every transaction meets the strict financial compliance and responsible gaming standards expected at both a state and federal level.

"We are very excited about this integration agreement as it enables BurraPay to deploy our crypto payment platform throughout Walker Digital's international casino customer network, giving their players the option to fund their table game wagering account with cryptocurrency - at the gaming table - in a compliant and secure way," added Luke Millanta, co-founder and CTO of BurraPay. "Our solution helps operators attract crypto-native players while giving existing players a fast, convenient new way to fund their accounts — a win-win for operators and players alike."

During G2E 2026 in Las Vegas from September 29 to October 1, the companies will offer scheduled demonstrations at WDTS's Las Vegas headquarters, located minutes away from the convention center. To schedule a demonstration, please contact mfluty@wdtablesystems.com.

Availability of the BurraPay solution integrated with the WDTS Perfect Pay™ table platform is

subject to gaming regulatory approval on a jurisdiction-by-jurisdiction basis.

###

About BurraPay

Founded in 2015 by crypto industry pioneer, Luke Millanta, and gaming legal and regulatory compliance veteran, David Greenslade, BurraPay is a financial technology company that designs, builds and delivers secure, regulatory-compliant cryptocurrency payment solutions for the global gaming industry, with a particular focus on the rapidly growing US iGaming and sports betting markets. In June 2026, BurraPay became the first cryptocurrency payments processor to operate in Nevada's regulated gaming market, processing the first legal crypto-funded sports wager in Las Vegas history. BurraPay provides licensed operators and regulators with a transparent, auditable way to facilitate digital asset transactions that meet the highest standards of compliance and transparency.
